ANNUAL REPORT 2024

DRIVING CHANGE,  
SHIFTING THE FUTURE

“Driving Change, Shifting the Future” is more than just a tagline; it reflects MBM Resources Berhad’s ambition to not only navigate but also lead the way towards a future of growth, innovation and enhanced shareholder value. The shift is about moving from the current state to an evolved, future-ready business that creates value for shareholders while setting new benchmarks in performance and innovation. It signals a bold and transformative path forward – one that positions the Group as a dynamic player in the industry and ensures its continued success in the years to come.

This year’s cover has been thoughtfully crafted to embody the theme “Driving Change, Shifting the Future”, symbolising the Group’s dynamic, forward-thinking approach and leadership within the automotive industry. The visual elements aim to convey the Group’s strategic direction, highlighting its commitment to driving transformation and expanding its businesses with speed, efficiency and boundless potential.

GROUP FINANCIAL PERFORMANCE  
FIVE-YEAR SUMMARY

Amidst the geopolitical uncertainties of 2024, we are pleased to report strong performance across our businesses. Our subsidiaries, joint venture, and associates have delivered another year of solid results, reflecting MBM Resources Berhad’s (“MBMR” or “the Group”) ability to leverage its strong market presence, operational efficiency, and customer-centric approach to successfully navigate challenges in its operating landscape.

INDUSTRY DEVELOPMENTS

Shifting market dynamics played a defining role across the global automotive industry. While US automakers General Motors and Ford continued to perform well domestically, European automakers such as Volkswagen, Mercedes-Benz, and BMW saw modest declines, largely due to weaker demand in China. Japanese brands, apart from Toyota, struggled globally, with Honda and Nissan facing challenges across key markets.

Meanwhile, Chinese automakers, including BYD, Chery, and Geely, capitalised on strong domestic demand and expansion opportunities, achieving impressive sales growth of 30% - 40% across Asia, the Middle East, and Latin America. The push towards Electric Vehicles (“EVs”) continued to accelerate, with Battery Electric Vehicles (“BEVs”) and hybrid models steadily increasing their global market share, reflecting a confluence of factors including changing consumer preferences, increasing affordability and competition, and the influence of regulatory policies.

Malaysia’s automotive industry continues to showcase resilience, achieving a record-breaking Total Industry Volume (“TIV”) of 816,747 units in 2024 – an impressive 2.1% increase, surpassing the previous high of 799,821 units in 2023. This is the third year in a row that vehicle sales registered such strength, as easy access to financing, a stable secondary market and the growth of e-hailing services played a crucial role in bolstering consumer confidence, translating into sustained vehicle purchases. Sentiment was also helped by the accommodative interest rate environment, with the Overnight Policy Rate (“OPR”) staying at 3% since May 2023. The entry of new brands, alongside government incentives such as excise duty and import tax exemptions for EVs, further stimulated interest in the market. At the same time, aggressive promotional strategies and an expanding range of EV offerings fuelled demand across key segments.

Total registration of new passenger vehicles in 2024 rose by 3.9% to 747,180 units from 719,145 units in 2023, with national makes (particularly Perodua) driving the growth. The same strength was not seen in the commercial vehicle segment, however. Sales slid by 13.8% to close the year at 69,567 units, as the government’s removal of the diesel subsidy in June 2024 saw pick-up truck demand fall by 16.4%. Total Industry Production (“TIP”) of new vehicles rose by 2% to reach 790,347 units (774,600 units in 2023). This is an all-time high, in tandem with the year’s higher overall sales.

GROUP FINANCIAL PERFORMANCE OVERVIEW

Building on our strong fundamentals, we are proud to celebrate another milestone in 2024, as the Group’s revenue rose by 2.9% to a record-high RM2.49 billion, up from RM2.42 billion in 2023. This marks our third consecutive year of growth, underscoring the Group’s ability to capitalise on robust consumer demand, drive operational efficiencies, and execute strategic investments across its core divisions.

The Group achieved another record-high in Profit Before Tax (“PBT”), which rose to RM393.9 million, an increase of 8.5% from 2023 after excluding a one-off non-operating gain of RM28.4 million recognised in 2023. This strong performance was driven by higher revenue especially from Perodua sales, and increased contributions from the Auto Parts Manufacturing Division, as well as the Group’s joint venture and associates. Consequently, Profit After Tax (“PAT”) climbed to RM373.1 million, highlighting the Group’s financial resilience and robust operational fundamentals.

From a financial stability perspective, the Group maintained a strong balance sheet, reinforcing its position as a low-leverage, well-capitalised organisation. Total assets grew to RM2.74 billion, reflecting operational expansion and strategic capital investments, while liabilities remained well-managed. The Group’s net assets per share increased by RM0.30 to RM5.70, demonstrating sustained value creation for shareholders. Although the debt-to-equity ratio rose to 2.2% from 0.8%, it remained at a prudent level, preserving financial flexibility to support future growth initiatives.

MBMR also saw its share price surge by 45.5%, rising from RM4.24 at the start of the year to RM6.17 at the end of 2024, further solidifying investor confidence in the Group.

In financial reporting, there were no significant regulatory changes impacting MBMR’s disclosures in 2024. The Group continued to uphold high standards of transparency, governance, and compliance, ensuring its financial statements accurately reflected its operations and strategic direction.

Each business segment played a pivotal role in shaping the Group’s financial results:

MOTOR TRADING AND ASSEMBLY DIVISION

The Motor Trading and Assembly Division recorded a 4% revenue growth, supported by strong demand for popular Perodua models such as the Bezza, Myvi, and Axia. Sales volume for the year surged by 9.8% to 31,899 units from 29,042 units in the previous year, far exceeding the TIV growth of 2.1%. Consequently, the Group’s share of TIV expanded from 3.6% in 2023 to 3.9%. This solid performance enabled MBMR to reinforce its market leadership, maintaining strong market shares across key brands, including Volvo, Volkswagen, and Perodua.

**PERCENTAGE CHANGE IN GROUP VEHICLES SALES VS. TIV**

| Year | Group's Vehicles Sales (%) | TIV (%) |
|------|----------------------------|---------|
| 2020 | -9.8%                      | -12.4%  |
| 2021 | -30.5%                     | -3.9%   |

| 2024 | 9.8%                       | 2.1%    |

The Division also saw sustained growth of its aftersales segment, which achieved record-high revenue of RM232.9 million, a 4.8% increase from 2023. The expansion of value-added services, customer-centric and retention initiatives, and digital engagement platforms contributed to this success, reinforcing the Division’s commitment to long-term customer satisfaction and service excellence.

AUTO PARTS MANUFACTURING DIVISION

The Auto Parts Manufacturing Division recorded a 4.9% decline in revenue, primarily attributed to shifts in model mix and adjustments in component purchase arrangements with certain carmakers for the tyre assembly business.

However, the Division’s production output rose by 4.0% in 2024 as it supplied a total of 9.5 million units to Original Equipment Manufacturers (“OEMs”). This growth was driven by rising customer demand, as evidenced by the 2.0% TIP increase from 2023, alongside streamlined manufacturing workflows that minimised waste and improved operational efficiency. Additionally, optimised supply chain management enabled better raw material sourcing and cost savings. These operational enhancements resulted in higher productivity and stronger profit margins, further supported by favourable material pricing and a stronger Ringgit against major foreign currencies.

ASSOCIATES AND JOINT VENTURE

The Group maintains substantial investments in vehicle assembly, manufacturing, and distribution through its key associates, namely Perodua Otomobil Kedua Sdn. Bhd. (“Perodua”), Hino Motors Manufacturing (Malaysia) Sdn. Bhd. (“HMMM”), Hino Motor Sales (Malaysia) Sdn. Bhd. (“HMSM”), and Teck See Plastic Sdn. Bhd. (“TSP”).

Established in 1993 as Malaysia’s second national carmaker, Perodua has evolved into a leading name in affordable mobility. In 2024, it set new benchmarks with record-breaking sales of 358,102 vehicles and production of 368,100 units, an impressive 8.4% and 7.2% increase respectively, from the previous year, reinforcing its position as market leader with a 43.8% share of the Total Industry Volume. Despite the absence of new model launches, sustained demand for its core lineup and a refreshed Aruz drove performance. After-sales service also saw growth, with 3.4 million vehicles serviced. Perodua plans to invest RM1.6 billion in 2025 – twice the previous year’s amount – to upgrade its facilities, enhance R&D, and launch its first in-house electric vehicle by Q4 2025.

In 2024, the performance and profit contributions from the Group’s associates continued their upward trajectory. Perodua, in particular, directly contributed RM278.8 million to the Group’s total share of associates’ profits, which stood at RM290.8 million. This accounted for a substantial 70.8% of the Group’s total PBT, further reinforcing the vital role of Perodua in the Group’s sustained financial strength.

Similarly, the Group’s joint venture, Autoliv Hirotako Sdn. Bhd. (“AHSB”), delivered a robust performance in 2024, driven by heightened demand for automotive safety components, increased production efficiency, and rising vehicle sales, which led to stronger order volumes. AHSB’s strategic focus on cost optimisation and operational enhancements further bolstered its profitability. As a result, the Group’s share of AHSB’s PBT rose to RM29.6 million, marking an impressive 22.3% increase over the previous year.

REWARDING OUR SHAREHOLDERS

MBMR remains unwavering in its commitment to enhancing shareholder value, and this is clearly reflected in its consistent performance and regular dividend payouts. The Group’s dedication to rewarding shareholders is guided by its policy of distributing at least 60% of the Company’s net profit each year. This ensures that the Group continues to share the success of the business with those who have placed their trust in it, while simultaneously maintaining a sound financial foundation for sustainable growth.

For the financial year ended 31 December 2024, the Group declared and paid to-date dividends of 45 cents per share (2023: 39 cents) or RM175.9 million to shareholders, comprising 13 cents interim dividend (2023: 12 cents interim dividend) and 32 cents special dividend (2023: 27 cents special dividend). The decision to include a special dividend underscores the Group’s confidence in its growth prospects and its commitment to maximising returns for shareholders.

In view of the strong performance for 2024, the Board is also recommending a final dividend of 9 cents per share or RM35.18 million, which, if approved by shareholders at the forthcoming Annual General Meeting (“AGM”), will result in a cumulative dividend payout of 54 cents per share (2023: 54 cents). The dividend payout for the previous financial year included a special dividend resulting from a property sale, whereas no such sale occurred in 2024.

Based on the closing share price of RM6.17 as at 31 December 2024, the dividend yield for 2024 was 8.8%, with a dividend payout ratio of 101.7% (2023: 125.0%) of the Company’s net profit. This payout ratio was well above the dividend payout policy of a minimum 60% of the Company’s net profit. The payout also represented 63.3% of the attributable profit of the Group, comparable to the 63.7% payout for 2023 despite the latter included a special dividend from the non-recurring property sale in 2023. This payout ratio reflects MBMR’s strong financial position and ongoing commitment to delivering value to shareholders while ensuring it retains adequate capital to fund future growth initiatives.

## STRATEGIC INITIATIVES – “DRIVING CHANGE, SHIFTING THE FUTURE”

The automotive industry is undergoing a profound transformation, driven by the global push towards net-zero emissions. Automakers are accelerating the electrification of their model lineups, expanding their hybrid and BEV offerings to meet regulatory and consumer demands. However, widespread EV adoption requires significant investments and infrastructure development, including charging networks and energy grid enhancements.

The rapid ascent of Chinese automakers, known for their shorter development cycles and advanced technology, has intensified competition, challenging established automakers to innovate and remain relevant. Additionally, the integration of Artificial Intelligence (AI), advanced sensors, and automation is reshaping vehicle capabilities, enhancing driver assistance, safety, and overall intelligence.

To stay ahead, the Group must embrace these rapid industry shifts, explore new opportunities, and integrate cutting-edge technologies into its operations. Furthermore, ensuring sustainable business practices will be critical in maintaining long-term competitiveness and industry leadership.

To future-proof its business, MBMR introduced a refined strategy “Driving Change, Shifting the Future” – which aligns with emerging industry trends, technological advancements, and sustainability imperatives. This strategy is anchored in four key pillars: IMPROVE, GROW, BUILD and STRENGTHEN, each driving specific initiatives to enhance operational efficiency, digital transformation, business diversification, and governance.

Under the IMPROVE pillar, MBMR is focused on enhancing customer experience, optimising operational efficiency via value analysis and value engineering (“VA/VE”), and implementing cost management initiatives. This includes the upgrade and refurbishment of service outlets, improvements in service intake capacity, and leveraging data-driven insights for better customer engagement on digital marketing channels.

The GROW pillar is centred on expanding MBMR's market presence and product portfolio by tapping into new customer segments, seizing business opportunities, and driving automotive innovation. A key milestone in this effort is the expansion of the Group's outlets in the East Coast and Klang Valley, further strengthening accessibility and service for customers in the regions. Additionally, the upcoming launch of a new 3S Jaecoo dealership outlet in Segambut reinforces MBMR's market presence, further strengthening its position in the evolving automotive landscape.

Through the BUILD pillar, MBMR is actively assessing mergers and acquisitions (“M&A”) opportunities, with a focus on automotive components manufacturing and adjacent industries. This strategic expansion ensures the Group remains agile and competitive amid evolving industry dynamics. Additionally, MBMR is exploring opportunities to diversify its customer base beyond the automotive sector, particularly within its Manufacturing segment. The Group is also seeking suitable businesses to integrate into its portfolio and identifying potential partnerships to venture into new, high-growth industries.

STRENGTHEN acts as the foundation that supports the above strategic pillars by reinforcing the Group's core functions. This includes sustainability, risk management, corporate governance, IT/digitalisation, and talent development. Strengthening these areas enhances organisational resilience, supports informed decision-making, and drives a high-performance culture. Key initiatives include expanding renewable energy use, upgrading risk and governance frameworks, accelerating digital adoption, and investing in workforce upskilling.

With “Driving Change, Shifting the Future”, MBMR is cautiously optimistic about the road ahead, balancing growth opportunities with sustained profitability. By enhancing efficiency, embracing innovation, and reinforcing sustainability, the Group is favourably positioned to deliver long-term value for shareholders, customers, and employees while navigating the evolving automotive landscape.

## SUSTAINABILITY INITIATIVES

Sustainability remains at the heart of MBMR's long-term strategy, reflecting its commitment to responsible business practices. As a key player in the Malaysian automotive industry, MBMR recognises its role in shaping a more sustainable and inclusive future, aligning its operations with national and global sustainability goals.

Sustainability in Day-to-Day Operations

At MBMR, sustainability is deeply integrated into the Group’s daily operations, guiding its approach to environmental responsibility, resource efficiency, social well-being, governance, and long-term value creation.

From reducing waste and optimising energy consumption to improving the health, safety, and welfare of employees, every aspect of the Group’s operations aligns with its broader sustainability goals. In line with this commitment, MBMR expanded its solar power generation capacity in 2024, further reducing reliance on conventional energy sources. This initiative supports the Group’s long-term carbon reduction targets while lowering operational costs and enhancing environmental performance.

The Group also prioritises responsible waste management and digital solutions to improve its efficiency. Additionally, employee engagement and training programmes reinforce a strong culture of sustainability across all levels of the organisation.

► SEGMENTAL BUSINESS REVIEW

MBMR is a prominent automotive group that operates through two key business divisions: the **Motor Trading and Assembly Division** and the **Auto Parts Manufacturing Division**, each contributing significantly to our overall success and market presence.

MOTOR TRADING AND ASSEMBLY DIVISION

Our Motor Trading and Assembly Division is made up of two well-established subsidiary groups: the Daihatsu (Malaysia) Sdn. Bhd. Group (“DMSB Group”) and the Federal Auto Holdings Berhad Group (“FAHB Group”). These groups have established strong reputations in Malaysia for their excellence in both vehicle sales and aftersales services, and they are also leaders in their respective sectors of the market.

Through these strategic subsidiaries and partnerships, the Motor Trading and Assembly Division continues to thrive, driving innovation and maintaining the Group’s leadership position in the highly competitive automotive market.

In 2024, the Division’s operating environment was favourable, supported by a combination of positive factors, including a stable socio-political landscape, healthy labour market and a resilient domestic economy. Customers could easily access financing for their vehicle purchases throughout the year. These tailwinds helped to position the Group to capitalise on the opportunities presented by these favourable circumstances.

Our strong profitability for the year is a testament to the effectiveness of our ongoing efforts to optimise both operational and cost efficiencies. These efforts have been integral in driving our growth, ensuring we remain competitive and able to deliver value despite the challenges faced by the wider industry.

The Division achieved another milestone in 2024, recording a 4.0% increase in revenue. This was driven by the sale of 31,899 vehicles, marking a 9.8% growth from 29,042 units in 2023. This strong performance underscores our ability to meet customer demand, capitalise on brand strength, and navigate a highly competitive market. As a result, our market share rose to 3.9% of TIV, up from 3.6% in the previous year.

GROUP’S VEHICLES SALES VS. TIV PERFORMANCE

Additionally, the Division saw impressive growth in aftersales revenue, which increased by 4.8%, reaching RM232.9 million, up from RM222.2 million in 2023. This growth reflects growing customer retention and service expansion efforts. Profit contribution from aftersales also increased further to 46.3%. The following chart illustrates the gross profit contributions of the Division’s vehicle sales and aftersales businesses:

► SEGMENTAL BUSINESS REVIEW

DAIHATSU (MALAYSIA) SDN. BHD. (DMSB)

The DMSB Group is a key player in Malaysia’s automotive industry, specialising in the sales and aftersales services of Daihatsu, Hino, and Perodua vehicles. Operating through a strong nationwide network, the DMSB Group has been the exclusive distributor of Daihatsu’s light-duty commercial vehicles in Malaysia for over 40 years and is also the largest dealer of Hino commercial trucks and buses in the country. Additionally, the DMSB Group’s wholly owned subsidiary, DMM Sales Sdn. Bhd. (“DMMS”), operates the largest dealership for Perodua vehicles in Malaysia.

KEY DEVELOPMENTS IN 2024

► Strong Sales and Aftersales Performance

The DMSB Group continued to perform in 2024, driven by higher sales of Perodua vehicles and enhanced aftersales throughput values and margins. DMMS’ sales of Perodua cars surged 11.8% to 29,703 units, while aftersales intake climbed to 211,819 units, reflecting a 6.2% year-on-year increase. Despite a challenging commercial vehicle market, the DMSB Group remained committed to delivering value-driven solutions to fleet operators, maintaining its competitive edge.

► Sustainability Initiatives

In line with its sustainability commitments, the DMSB Group took meaningful steps toward sustainability in 2024. It expanded its solar panel installations, with the system at DMMS Desa Coalfields 3S centre set to become operational in 2025. To further optimise resource efficiency, rainwater harvesting systems were successfully installed at DMMS Chan Sow Lin and DMMS Desa Coalfields, reducing reliance on conventional water sources.

► Expansion and New Facility Developments

The DMSB Group continued to enhance customer accessibility and service coverage through its ongoing network expansion and upgrading efforts slated for completion in 2025:

- DMMS Desa Coalfields (3S) – a relocated and upgraded facility (Q2 2025)
- DMMS Kota Kinabalu (4S) – an upgraded branch with expanded capabilities (Q2 2025)
- DMMS Pasir Mas (3S) – a brand-new outlet to strengthen East Coast presence (Q3 2025)

These developments will enhance the DMSB Group’s nationwide footprint, ensuring improved access to high-quality sales and aftersales services for customers across key regions.

► Awards and Industry Recognition

The DMSB Group’s dedication to excellence was recognised at the 10<sup>th</sup> Hino Total Support Contest 2024, where two of its outlets secured 1<sup>st</sup> Runner-up positions. The Group also secured 1<sup>st</sup> Runner-up as Hino’s Dealers of the Year 2024, as well as Champions for Quality Sales Award (LCV) and Top Growth Service Intake Award 2024. These achievements underscore the Group’s commitment to quality service, operational efficiency, and customer satisfaction.

CHALLENGES & MITIGATION IN 2024

1 Economic and Market Challenges

Malaysia’s commercial vehicle TIV experienced a significant 13.8% decline in 2024, partly affected by the removal of the diesel subsidy in June. This policy shift led fleet operators to adopt a more cautious approach as they navigated rising operational costs. The slowdown was further exacerbated by market saturation following the post-pandemic e-commerce surge, resulting in negative growth for Hino and Daihatsu commercial vehicle sales under the DMSB Group.

To counter these challenges, the Group intensified its engagement with fleet companies, introducing compelling Comprehensive Fleet Packages and the Total Support Program. These initiatives provided tailored, value-driven solutions to support fleet operators, sustain sales momentum, and reinforce the Group’s position in the commercial vehicle sector.

2 Intensifying Competition

The competitive landscape also intensified with the expansion of Perodua and Hino’s dealer networks, which led to a decline in service intake for Hino vehicles at DMSB.

To mitigate this, the Group increased the visibility of its nationwide aftersales network, highlighting the availability of genuine parts, professional technician support, and comprehensive ownership programmes. Additionally, the focus on the New Customer Retention Programme reinforced post-sale engagement by offering timely promotions on first-year renewals and services, fostering stronger customer loyalty and long-term retention.

The influx of Chinese automotive brands and aggressive pricing strategies from competitors posed another challenge, particularly through digital marketing channels.

In response, the Group maximised its digital presence and leveraged social media platforms to increase online lead generation, ensuring broader customer outreach and stronger brand engagement.

3 Lack of New Models

With no new major model launches in 2024 and lack of commercial EV models in the near term, sales growth during the year relied primarily on demand for existing products.

To mitigate this, the DMSB Group conducted in-depth market research to identify new opportunities and alternative strategies. A key initiative was the intensified promotion of the versatile Daihatsu Granmax, which offers 17 distinct body configurations to cater to diverse business needs. By leveraging its adaptability and practicality, the Group aimed to strengthen its market position and drive continued growth despite industry headwinds. While no new models are expected for Daihatsu and Hino in the near term, the Group will continue its active engagement with the principals. On a positive note, demand for existing Perodua models remains strong, and the Group anticipates favorable response to two new Perodua models, including an EV, set to launch by the end of 2025.

SEGMENTAL BUSINESS REVIEW

FEDERAL AUTO HOLDINGS BERHAD (FAHB)

The FAHB Group, through its wholly owned subsidiaries Federal Auto Cars Sdn. Bhd. (“FAC”) and F.A. Wagen Sdn. Bhd. (“FAW”), stands as a distinguished dealer for Volvo and Volkswagen vehicles in Malaysia. As of 31 December 2024, both FAC and FAW are the largest dealer groups for Volvo and Volkswagen in the country.

KEY DEVELOPMENTS IN 2024

Strong Sales and Aftersales Performance

The FAHB Group navigated a rapidly evolving market landscape in 2024, marked by softer demand for premium brands and intensified competition from both established and new entrants in the Malaysian automotive sector. Despite these challenges, FAC and FAW maintained their leadership positions, holding the largest market share among Volvo and Volkswagen dealers in Malaysia. FAC expanded its market share by 1.1% to 25.6%, while FAW secured a 0.7% increase, capturing 28.3% of Volkswagen sales nationwide. Meanwhile, FA Sino Premium Sdn Bhd (“FASP”)’s Jaecoo dealership made a strong entrance, achieving a 2.8% market share despite operating for less than five months in 2024. This momentum strategically positions the FAHB Group to capitalise on the rising demand for Chinese SUVs, reinforcing its foothold in the growing segment.

Tapping the Premium Chinese SUV Segment

In August 2024, the FAHB Group further strengthened its brand portfolio by securing a Jaecoo dealership through its subsidiary FASP, marking a strategic expansion into the premium Chinese SUV segment. This move reflects the FAHB Group’s commitment to diversifying its offerings and adapting to evolving consumer preferences. By integrating Jaecoo into its dealership network, the FAHB Group is well-positioned to tap into new market opportunities while upholding its dedication to exceptional customer service and innovative mobility solutions. FASP currently oversees 1 Jaecoo sales outlet and 1 service outlet, both located at Jalan Syed Putra, Kuala Lumpur.

Sustainability and Environmental Initiatives

The FAHB Group took significant steps to enhance its environmental initiatives in 2024. To support the growing adoption of EVs, the FAHB Group has continually expanded its direct-current (“DC”) charging facilities at FAC outlets in Kuala Lumpur and Penang catering to both internal operations and customer charging needs.

In a further effort to reduce its carbon footprint, the FAHB Group completed the installation of a solar power system at its Federal Auto buildings in Glenmarie, leading to lower electricity costs and reduced carbon emissions. The Group is considering expanding solar energy solutions to additional branch locations in 2025, reinforcing its commitment to sustainable business practices.

Strengthening Corporate Collaborations

The FAHB Group leveraged Volvo Car Malaysia’s engagement with major banks to reach a wider customer base and proactively pursued government fleet opportunities to expand brand visibility.

Growth in the Used Car Segment

Used car sales continued to grow, providing an additional revenue stream and complementing new car sales through trade-in programmes. This initiative helped to drive sales conversions while enhancing customer retention.

Volvo EX30, a fully electric compact SUV, strengthening MBMR's presence in the premium EV segment.

Volkswagen Touareg R-Line, a flagship luxury SUV, appealing to the high-end market.

CHALLENGES & MITIGATION IN 2024

1 Intensified Competition in the Premium Segment

The arrival of affordable BEVs dampened sales in the premium segment, pressuring demand for Volvo and Volkswagen vehicles. Additionally, the influx of Chinese automotive brands like BYD and Chery with aggressive pricing and online sales models further intensified market competition.

2 Limited Model Offerings

A lack of new Volkswagen model launches restricted sales growth, requiring FAW to compete aggressively with other dealers through targeted advertising and attractive offers, while maintaining profitability.

To navigate these challenges, FAHB Group focused on expanding its portfolio of BEVs and premium SUVs, underscoring its commitment to innovation and market growth. Volvo Malaysia strengthened its BEV lineup with the launch of the EX30, building on the success of the XC40 BEV (2022) and C40 BEV (2023), further solidifying its presence in the electrified segment. Meanwhile, Volkswagen catered to performance-driven customers by introducing the Touareg and locally assembling the Golf R, enhancing its appeal in the high-performance market. In the premium SUV segment, Jaecoo made a strong entry into the Malaysian market with the debut of the J7 SUV in August, followed by the launch of the Omoda C9 in December. These strategic additions not only enabled the Group to adapt to shifting consumer preferences but also reinforced its competitive position in key growth sectors.

MBMR's Auto Parts Manufacturing Division plays a crucial role in Malaysia's automotive industry, consistently securing new projects from major OEMs. The Division actively participates in the development of new models, facelifts, and both major and minor model revisions. Through these projects, it supplies key automotive components via its subsidiaries, Oriental Metal Industries (M) Sdn. Bhd. ("OMI") and Hirotako Acoustics Sdn. Bhd. ("HASB"), as well as Autoliv Hirotako Sdn. Bhd. Group ("AHSB Group"), a jointly controlled entity.

OMI specialises in steel wheel manufacturing and tyre module assembly, complemented by warehousing and other value-added services to enhance supply chain efficiency. Meanwhile, HASB provides the local automotive market with a comprehensive range of Noise, Vibration, and Harshness ("NVH") solutions, including dampening sheets, insulators, and felt, ensuring improved vehicle comfort and performance. The AHSB Group focuses on manufacturing critical safety restraint systems, such as airbags, seatbelts, and steering wheels, reinforcing vehicle safety across various automotive segments.

In 2024, the Division's revenue declined by 4.9%, primarily due to shifts in the model mix and adjustments in component purchase arrangements with certain carmakers for the OMI tyre assembly business. However, total production grew by 4.0%, reaching 9.5 million units, driven by strong demand from most OEMs, with Perodua models experiencing a particularly significant surge. PBT increased in line with higher production volumes, supported by enhanced cost management and operational efficiency measures, reinforcing the Division's resilience amidst evolving market dynamics.

AUTO PARTS MANUFACTURING ("APM") PRODUCTION VOLUME V.S. TIP

▶ SEGMENTAL BUSINESS REVIEW

ORIENTAL METAL INDUSTRIES (M) SDN. BHD. (OMI)

Our subsidiary, OMI, is a leading manufacturer of steel wheels and a key assembler of wheels and tyres for major passenger and commercial vehicle manufacturers, including Perodua, Proton, Honda, Toyota, Mitsubishi, and Hino. In addition to manufacturing, OMI provides value-added services and warehousing solutions to enhance supply chain efficiency.

● KEY DEVELOPMENTS IN 2024

▶ Resilient Performance Amid Market Shifts

The Malaysian automotive market remained strong in 2024, supporting increased production and deliveries across OMI's key product segments. Steel wheel production saw a modest 0.7% growth, rising from 399,000 units in 2023 to 402,000 units in 2024, while tyre assembly volumes grew by 2.2%, reaching 3.27 million units. Although revenue declined by 4.9% in 2024, primarily due to reduced component purchase arrangements from a key OEM, PBT still increased by 18.0%, supported by higher production volumes, enhanced value-added activities, and the successful implementation of cost-optimisation initiatives.

▶ Advancing Sustainability Through Renewable Energy

OMI further strengthened its commitment to sustainability by completing the installation of its third solar power system at the Sungai Choh plant in Selangor, its newly relocated facility designed to enhance production efficiency, optimise logistics integration, and expand operational capabilities to better support key automotive clients.

With the latest installation, OMI now operates a total solar capacity of 1,050 KWp, reinforcing its commitment to reducing its environmental impact and improving energy efficiency.

▶ Recognition for Excellence and Sustainability

In 2024, OMI's dedication to quality, efficiency, and sustainability was recognised through multiple industry accolades. The company received the Honda Quality Award, highlighting its commitment to delivering high-quality components that meet stringent manufacturing standards. OMI was also honoured with the Toyota Delivery Award, reflecting its exceptional performance in meeting delivery timelines and supply chain reliability. Additionally, the company was recognised with the Proton Best Quality Scorecard Award, further reinforcing its reputation for excellence in automotive component manufacturing.

Beyond product quality, OMI's commitment to sustainability and corporate responsibility earned it the Sustainability Shared Prosperity Organisation Assessment (SSPOA) Recognition from the Malaysia Productivity Corporation. This accolade highlights the company's proactive efforts in minimising its environmental footprint and advancing sustainable business practices. Collectively, these achievements reinforce OMI's reputation as a trusted and forward-thinking partner in the automotive industry.

● CHALLENGES & MITIGATION IN 2024

1 Navigating Market Challenges and Cost Pressures

The year was not without its challenges. The influx of completely built-up vehicle imports and the entry of new locally assembled OEMs — in which OMI does not currently participate — posed risks to market share and sales volume. Additionally, rising operational costs such as higher wages and electricity tariffs, added financial pressure.

To mitigate these challenges, OMI held active engagements with existing and new OEMs for potential new businesses. It is also capitalising on the rapid expansion of Chinese OEMs in the ASEAN market, as this creates opportunities to capture new projects and increase market share. OMI is also in continuous discussions with customers to improve its product pricing and mitigate increasing operating costs.

HIROTAKO ACOUSTICS SDN. BHD. (HASB)

HASB, our wholly owned subsidiary, is a leading supplier of NVH and dampening sheets ("DS") products to Malaysia's automotive industry. These products are designed to enhance vehicle comfort by reducing noise and vibration. The company also produces felt materials used for insulation and soundproofing.

HASB's technical partner, Autoneum, is a global leader in vehicle acoustic and thermal management solutions. Autoneum provides HASB with strong technical support, enabling the company to remain at the forefront of NVH technology and deliver high-quality products to major OEMs.

● KEY DEVELOPMENTS IN 2024

▶ Steady Growth Amid Market Challenges

In 2024, HASB successfully navigated a dynamic market landscape, achieving higher production volumes in the DS segment while facing some challenges in NVH and felt production. The company delivered 641,296 car sets of DS products, marking a 1.1% increase compared to 2023, largely due to increased production volumes from Perodua, where HASB supplies to all Perodua models. However, NVH product deliveries declined by 5.1%, and felt production fell by 8.5%, primarily due to reduced demand from other customers.

Despite a 4.4% decline in revenue, HASB recorded an impressive 8.6% increase in PBT, marking the highest profit in the company's history. This achievement was driven by a favourable product mix and the successful implementation of cost-saving initiatives, including VA/VE programmes, alternative sourcing strategies, and an increased focus on reuse and recycling of raw materials. Additionally, HASB maintained high capacity utilisation rates, with DS production at 89% and NVH production at 82%, reinforcing its resilience in a challenging market.

● CHALLENGES & MITIGATION IN 2024

While HASB maintained strong production levels, it faced several challenges in 2024:

1 Slowing Consumer Spending

Malaysia's diesel subsidy rationalisation impacted disposable income for certain segments of the population, leading to more cautious spending behaviour and affecting overall consumer demand.

To mitigate these challenges, HASB is actively implementing VA/VE initiatives, optimising alternative sourcing strategies, and expanding the reuse and recycling of raw materials to enhance cost efficiency. Additionally, the company is strengthening work efficiency by adhering to Quality, Cost, and Delivery principles through the continued adoption of the Lean Production System and Small Group Activity frameworks, ensuring operational resilience and sustained productivity.

▶ SEGMENTAL BUSINESS REVIEW

AUTOLIV HIROTAKO SDN. BHD. (AHSB)

The AHSB Group is a jointly controlled entity, established through a 51%-owned joint venture with Autoliv AB, a global leader in automotive safety restraint systems and one of the largest Tier-1 suppliers in the industry. AHSB Group specialises in the design, testing, and manufacturing of advanced vehicle safety restraint systems, providing essential components such as seat belts, airbags, and steering wheels. Through its collaboration with Autoliv AB, AHSB remains at the forefront of automotive safety innovation, ensuring that its products meet the highest industry standards for reliability and performance.

● KEY DEVELOPMENTS IN 2024

▶ Record-Breaking Growth and Strong Market Position

AHSB achieved record-breaking performance in 2024, setting new milestones in both revenue and production output. The company recorded its highest-ever revenue after an 8.5% increase from 2023. PBT, likewise, saw a 22.8% jump, driven by several key factors:

- **Strong Sales Performance**  
Record-breaking revenue in 2024, supported by robust market demand; production output increased with 4.82 million products delivered, a 6.9% rise compared to 4.51 million units in 2023, thus enabling it to maintain strong market share in the industry.
- **Bulk Purchases from a Major OEM**  
A significant order in Q1 contributed to higher sales volume.
- **Foreign Currency & Other Operational Claims**  
Successful recovery of various claims from OEMs provided additional financial gains.
- **Cost Optimisation & Currency Strengthening**  
Improvement in material pricing and a stronger Ringgit further bolstered profitability.

● CHALLENGES & MITIGATION IN 2024

Despite a robust market and record-breaking performance, AHSB faced growing challenges:

- 1 **Rise of Chinese Brands & EVs**  
The increasing market share of Chinese-made vehicles and EV posed a significant challenge, as these new entrants often source components from their own supply chains, reducing demand for locally manufactured parts.
- 2 **Emerging Competition from Chinese Auto Parts Makers**  
The entry of Chinese automotive component manufacturers is seen as a major threat to local auto parts producers, intensifying price competition and market dynamics.

To mitigate the above challenges, AHSB will:

- Explore opportunities with Chinese OEMs coming into the ASEAN market to capture new markets.
- Collaborate with regional technical and operational partners to increase competitiveness by improving technical capabilities, streamlining procurement, and optimising operations.
- Leverage on technical and operational partners' capabilities and networks to access new markets and projects, and navigate changing market dynamics.
- Attract and retain talent with the necessary skills and competencies to develop expertise in emerging technologies.

GOING FORWARD

Economic and Industry Landscape in 2025

Malaysia's economy is expected to experience modest growth in 2025, driven by robust investment activity and improving exports, amongst others. Multi-year public and private sector projects will stimulate higher capital imports and increased productive capacity, while government initiatives such as the minimum wage increase to RM1,700 and a salary revision of up to 15% for government servants will provide additional support for consumer demand.

On the external front, recently Malaysia and other countries across the globe were subject to a reciprocal tariff policy by the US, sending shockwaves across global markets and trade. Despite several pullbacks, the tariffs imposed remain significant and the volatility could have negative second-order impacts on Malaysia's competitiveness, regional trade and foreign investment. Ultimately this could negatively impact the country's economic performance in 2025.

Closer at home, the Malaysian Automotive Association forecasts TIV to reach 780,000 units in 2025, supported by new model launches, strong domestic spending, and stable lending conditions. The expiry of import duty exemptions for EVs and the uncertainties surrounding the implementation of the Open Market Value ("OMV") for locally assembled cars may also accelerate purchases before the deadline. However, challenges arising from global trade uncertainties, increased competition from Chinese automakers, and Malaysia's impending petrol subsidy rationalisation could influence purchasing trends, particularly in the higher engine capacity segment.

Strategic Focus for 2025: Driving Change, Shifting the Future

To navigate these challenges while capitalising on emerging opportunities, MBMR is executing its strategy which is focused on the three pillars of IMPROVE, GROW and BUILD, supported by the foundation of STRENGTHEN.

The Group will IMPROVE its operations with the strengthening of VA/VE initiatives under the Auto Parts Manufacturing Division to improve cost efficiency, production quality, and supply chain resilience. Meanwhile the Motor Trading and Assembly Division will strive to IMPROVE its customer experience with value-added services, such as digital service scheduling and expanded body & paint solutions.

The Group will further GROW its retail network with the opening of a new Jaecoo 3S outlet in Segambut, while Perodua outlets are being upgraded and expanded into the East Coast market, particularly with the opening of a new Pasir Mas 3S outlet, improving accessibility and customer engagement.

The Division is also growing its offerings of EV and hybrid vehicles for example by working with its partners like Jaecoo to promote the J7 PHEV, the plug-in hybrid version of the popular J7 SUV. The J7 PHEV, launched in February 2025, is the first non-European PHEV priced below RM200,000.

It has a claimed range of 1,300 km with DC fast-charging capabilities, a unique feature for a plug-in hybrid model in Malaysia. As for Perodua, it is expected to launch its first fully in-house-developed EV in late 2025.

MBMR will continue to BUILD and evaluate a pipeline of M&A or venture opportunities, which will expand its participation in the automotive and adjacent high-growth industries, enhancing the Group's earnings and return on capital.

At the core of it all, the Group will further STRENGTHEN its capabilities in areas such as sustainability by increasing solar energy adoption and implementing circular economy initiatives. Digitalisation and automation of processes will be further explored across the Group, while Human Capital enhancement will be pursued, specifically in the areas of Talent Development and Retention.

MBMR remains positive that its strong operating fundamentals, strategic pillars, and commitment to sustainability will position it well for long-term success. By focusing on innovation, operational efficiency, market expansion and customer-centric strategies, the Group remains flexible to adapt and grow in Malaysia's dynamic automotive sector.

SUSTAINABILITY STATEMENT

As we face growing environmental, economic, social, and governance (“EESG”) challenges in our rapidly evolving world, MBM Resources Berhad (“MBMR” or “the Group” when referred collectively with its subsidiaries) remains committed to sustainable business practices. We aim to empower our stakeholders to contribute to building a more sustainable future for both the environment and society. Our goal is to minimise our environmental and social impact, comply with regulations, mitigate risks, and promote sustainable development by implementing proactive leadership and initiatives.

In 2024, the Group launched “Driving Change, Shifting the Future”, a strategic initiative designed to capitalise on evolving industry trends, technological innovation, and sustainability imperatives. This integrated approach embeds sustainability across all operations, pursuing profitable growth whilst safeguarding the well-being of future generations. The Group is committed to fostering a sustainable future through partnerships, ensuring accountability and responsible conduct through strong governance practices.

OUR APPROACH TO SUSTAINABILITY

The Group’s sustainability approach is governed by a sustainability governance structure, guided by stakeholder engagement, and driven by its risk management framework. This integrated approach enables the Group to embed sustainability principles into the business strategy and operations. We believe this approach will enhance the value creation for all the Group’s stakeholders.

MBMR’s sustainability agenda is structured around four key pillars. The environmental pillar refers to the ecological impacts associated with our business and operations, while the social pillar relates to aspects such as working conditions, human rights, diversity, and inclusion. The economic pillar encompasses both direct and indirect economic impacts, including strengthening the local supply chain and supporting community socio-economic initiatives. The governance pillar upholds transparency, business ethics, and integrity.

i Details of the Group’s sustainability approach are provided in the 2024 Sustainability Report.

ENVIRONMENT

PILLAR 1

Pillar 1 focuses on the environmental aspects where the Group proactively explores ways to contribute to positive environmental change. This commitment is supported by sustainability governance and related policies, as well as sustainability performance measurement and collaborations with relevant authorities and business partners. The Group actively seeks and implements practical solutions to enhance energy and water efficiency, mitigate climate change, reduce carbon emissions, and responsibly manage waste throughout our operations. Integrating environmental considerations into operations enables us to contribute to national environmental goals and advance relevant SDGs, including Goals 3, 6, 7, 11, 12 and 13.

SOCIAL

PILLAR 2

The Group's social pillar focuses on striking a balance between economic performance and social considerations. Our success is contingent upon strong relationships with our communities, customers, employees, and suppliers.

This pillar is dedicated to addressing six material matters: Customer Satisfaction and Loyalty, Health and Safety, Diversity and Equal Opportunity, Labour and Working Standards, Employee Welfare, and Community Engagement and Investment, contributing to the SDGs 3, 4, 5, 8, 10, 11, and 16.

ECONOMIC

PILLAR 3

The automotive industry is a significant contributor to Malaysia's economic growth. Our direct economic impacts can be traced to the jobs, wages and overall economic output we generate, which support national development and increase stakeholder value. The automotive industry also generates indirect and induced economic effects, including spending with local suppliers, creating jobs, and fostering the growth of skilled designers, engineers, technicians, and other professionals. As such, we prioritise sourcing from local suppliers whenever possible to boost the socio-economic standing of local businesses within the industry.

GOVERNANCE

PILLAR 4

The Group upholds good governance standards and expects the same from all our stakeholders. This commitment is reinforced through legal compliance, ongoing training, awareness programmes, and clear communication. The material matters associated with these pillars include Corporate Governance, Anti-Corruption, Data Privacy, and Cybersecurity, which interlink with SDG 16: Peace, Justice, and Strong Institutions.

The Group's Directors and Management have established clear reporting lines, set anti-bribery and anti-corruption objectives, and allocated necessary resources. In compliance with Section 17A of the Malaysian Anti-Corruption Commission Act ("MACCA") 2009, the Group has implemented an Anti-Bribery and Anti-Corruption ("ABAC") Policy, outlining our commitment to avoiding all forms of bribery and corruption. This policy, along with our COBCE, is embedded throughout our operations to ensure integrity, responsibility, ethical conduct, and sustainability.

He holds a Bachelor of Science with Highest Honors in Biotechnology from Rochester Institute of Technology, New York.

Unless otherwise stated herein, all members of the Management Committee,

- have no family relationship with any Director and/or major shareholder of the Company;
- have no conflict of interest with the Company except as disclosed on page 70 of the Annual Report;
- have not been convicted of any offences, other than traffic offences, within the past five years nor been imposed any public sanctions or penalties by the relevant regulatory bodies during the financial year ended 31 December 2024.

The Board of Directors of MBMR (“Board”) is committed to achieving high standards of corporate governance throughout the Group and to the highest level of integrity and ethical standards in all its business dealings.

This Corporate Governance Overview Statement (“CG Overview Statement”) sets out MBMR’s application of the principles and recommendations of the Malaysian Code on Corporate Governance 2021 (“MCCG”) throughout the financial year ended 31 December 2024 (“FYE 2024”) and is to be read together with the MBMR Corporate Governance Report 2024 (“CG Report”) which is available on the Company’s website at [www.mbmr.com.my](http://www.mbmr.com.my).

This CG Overview Statement is presented based on the following three (3) key principles of good corporate governance as provided in the MCCG:

The CG Overview Statement highlights practices that best illustrates the Company’s compliance with the MCCG, which the Board believes is the foundation of continuous and sustainable business growth and not merely for the purpose of meeting regulatory requirements. At the same time, departures from the prescribed practices are identified, explained and presented with alternative practices undertaken by the Company to achieve the intended outcomes as envisioned by the MCCG.

COMPLIANCE WITH MCCG

The Board is of the opinion that the Company has, in all material aspects, complied with the principles and practices set out in the MCCG for FYE 2024, apart from departures on the following practices:

- Practice 5.2 (At least half of the Board comprises independent directors); and
- Practice 8.2 (Disclosure of top five senior management’s remuneration component on a named basis).

Explanations on these departures are further elaborated in the CG Report which is available on MBMR’s corporate website at [www.mbmr.com.my](http://www.mbmr.com.my).

PRINCIPLE A

BOARD LEADERSHIP AND EFFECTIVENESS

THE MBMR GROUP GOVERNANCE FRAMEWORK

MBMR is led by the Board, who has full and effective control over the business undertakings of the Company subject to the powers reserved for the shareholders under the Company’s Constitution, the Main Market Listing Requirements (“Listing Requirements”) of Bursa Malaysia Securities Berhad (“Bursa Securities”) and any other applicable laws. The Board provides the overall governing oversight through its Board Committees and the Group Chief Executive Officer (“GCEO”) who is supported by the MBMR Management Committee and Heads of Business Units.

The MBMR Group Governance Framework is illustrated as follows:

PRINCIPLE A

BOARD LEADERSHIP AND EFFECTIVENESS

ROLES AND RESPONSIBILITIES OF THE BOARD

The Board sets the strategic direction for the Company, ensures that the necessary resources are available for the Company to achieve the strategic direction and provides consistent oversight and review on the Company’s progress in meeting the direction. The Board, as guided by the Company’s Board Charter, retains effective control over important policies and processes covering areas such as internal controls, risk management and remuneration of employees of the Company. The Board also ensures that the strategic plan of the Company supports long-term value creation and includes strategies on economic, environmental, and social considerations underpinning sustainability and oversees the sustainability governance of the Group including setting the Group’s sustainability strategies priorities and targets as outlined in the Company’s Sustainability Report.

At MBMR, there is a clear division of responsibilities between the Board and the GCEO to ensure a balance of power, authority and accountability.

The Chairman of the Board, En. Aqil bin Ahmad Azizuddin is responsible to lead the Board in the effective performance of its function and acts as the conduit amongst members to facilitate constructive discussions at meetings. Details of the Board meetings held in 2024 and the Board members’ respective attendances are disclosed on page 59.

On the other hand, the GCEO, Encik Rizal bin Mohd Zin, who was appointed on 2 January 2024, spearheads the business and the day-to-day management of the Group and implements the strategies approved and as directed by the Board.

The Senior Independent Director (“SID”), Dato’ Anwar bin Haji @ Aji meanwhile acts as a sounding board to the Chairman and serves as an intermediary for other Directors and point of contact for shareholders and other stakeholders when necessary.

Detailed disclosure on the responsibilities of the Board, Chairman, SID, and GCEO are provided in the Board Charter and the CG Report which are available on the Company’s website at [www.mbmr.com.my](http://www.mbmr.com.my).

The Company Secretaries of the Company are appointed by the Board based on criteria related to the qualifications, experience and competence of the individuals concerned to carry out their duties and functions.

The Company Secretaries of the Company have the requisite credentials and are qualified to act as Company Secretaries under Section 235(2) of the Companies Act 2016.

The Company Secretaries play important roles in good corporate governance by ensuring the Board adheres to all applicable laws and requirements and advocates adoption of corporate governance best practices.

DEMARICATION OF RESPONSIBILITIES OF THE BOARD, BOARD COMMITTEES AND MANAGEMENT

The Board has adopted a formal Board Charter which is available on the Company’s website at [www.mbmr.com.my](http://www.mbmr.com.my). The Board Charter sets out matters reserved for the Board, defines the role and responsibilities of the Chairman, SID, GCEO, Company Secretary, and the Board Committees. The Board Charter assists the Company’s stakeholders to better understand the objectives of the Board, and the manner in which the Board exercises its authority and discharges and delegates responsibilities in managing the affairs of the Company.

The Board Charter is subject to an annual review and more frequently, if required, to ensure it remains consistent with any changes in the law, latest developments in regulations, guidelines or best practices issued or recommended by the relevant authorities, or any changes to the Company or the Group’s business which may affect the Board Charter. The Board Charter was last reviewed on 27 February 2025.

To facilitate the Board in carrying out its duties as set out in the Board Charter, the Board is assisted by four Board Committees to which the Board has delegated several key functions, namely the Audit Committee (“AC”), the Nominating and Remuneration Committee (“NRC”), the Risk Management and Sustainability Committee (“RMSC”) and the Long Term Incentive Plan Committee which operate within the Terms of Reference of the respective Board Committees. The Terms of Reference of the Board Committees approved by the Board are in line with the Listing Requirements of Bursa Securities and the MCCG and are available on MBMR’s website at [www.mbmr.com.my](http://www.mbmr.com.my).

PROMOTING GOOD BUSINESS CONDUCT AND MAINTAINING A HEALTHY CORPORATE CULTURE THAT ENGENDERS INTEGRITY, TRANSPARENCY AND FAIRNESS

The Board has adopted a formal Code of Business Conduct and Ethics (“COBCE”) that applies to all Directors and employees of the Group with the objective of providing guidance on the standards of behaviour expected of Directors and employees of the Group and where applicable, third parties including counterparties and business partners.

The Board also adopts a zero-tolerance approach against all forms of bribery and corruption and takes a strong stance against such acts. With Section 17A of the Malaysian Anti-Corruption Commission Act 2009 (“MACCA”) taking effect on 1 June 2020, the Board had approved and implemented the MBMR Group Anti-Bribery and Anti-Corruption Policy (“ABAC Policy”) which sets out the Group’s position on avoiding bribery and corruption practices in all its forms in the Group’s daily operations. The ABAC Policy is developed based on the “T.R.U.S.T” Principles under the Guidelines on Adequate Procedures issued pursuant to Section 17A(5) of the MACCA.

To further supplement the COBCE and the ABAC Policy, the Board has established and approved a Whistleblowing Policy aimed at providing an avenue for all employees and members of the public to disclose any improper conduct or criminal offence committed or about to be committed within the Group including inter alia, suspected and/or known fraud, corruption, and other unlawful acts. The Whistleblowing Policy sets out the processes, procedures and appropriate channels which facilitate whistleblowing, and additionally provides the assurance of protection to the whistleblower.

The COBCE, the ABAC Policy and the Whistleblowing Policy are reviewed periodically by the Board to ensure adequacy and updated from time to time to reflect or incorporate any new regulatory requirements / developments. All Directors and employees are required to periodically attest and acknowledge their acceptance of the aforesaid policies and the latest versions of these policies are made available on the Company’s website at [www.mbmr.com.my](http://www.mbmr.com.my).

BOARD COMPOSITION

The Board comprises eight (8) Directors, five (5) of whom are Non-Independent Non-Executive Directors and three (3) are Independent Non-Executive Directors, which is in compliance with the requirement under Paragraph 15.02(1) of the Listing Requirements of Bursa Securities, i.e. at least two Directors or one-third of the Board of Directors are Independent Directors.

Although the current Board composition does not meet the recommendation under MCCG Practice 5.2, the Board considers that the Company’s interest as a whole will be best served by the Non-Independent Non-Executive Directors forming a majority of the Board and contributing to the strategies and policy decisions of the Company from a highly invested standpoint, while the Independent Directors continue to provide a significant check and balance function to ensure that decisions are free of any conflict of interest.

Additionally, the Company considers the skillsets of the Board members to be complementary and together, they give a balance of industry-specific knowledge and commercial experience to the Company. This balance enables the Board to tap into its holistic view of the business world and make informed and independent judgement to many aspects of the Company’s strategy and performance so as to ensure that it maintains the highest standards of conduct, integrity and character.

The Board also recognises the importance of diversity in enhancing its effectiveness and decision-making process. MBMR has achieved the recommended 30% women representation on the Board, in line with the Practice 5.9 of the MCCG following the appointment of Ms. Chin Min Ming as an Independent Non-Executive Director on 16 December 2024. With this appointment, the Company now comprises of 37.5% women representation on the Board and 33.3% women representation in senior management. This demonstrates the Board’s commitment to continuously foster an inclusive leadership team with diverse expertise, perspectives, and experiences, while at the same time upholding its code of conduct on non-discrimination and providing equal opportunities to all based on qualification, merit and performance.

Furthermore, the Company has adopted the recommendation under Practice 1.4 wherein the Chairman, En. Aqil bin Ahmad Azizuddin is not a member of the AC and/or the NRC. En. Aqil bin Ahmad Azizuddin is also not a member of any Board Committee of MBMR.

Details of the members of the Board and Board Committees as of the date of this CG Overview Statement are disclosed on pages 38 to 41.

PRINCIPLE A

BOARD LEADERSHIP AND EFFECTIVENESS

CRITERIA FOR RECRUITMENT

The NRC is empowered to bring to the Board, recommendations with regards to the appointment of any new Executive or Non-Executive Directors. The NRC periodically reports to the Board on succession planning for the Board Chairman, Directors and Senior Management.

The NRC ensures that the Board has an appropriate balance of a broad range of skills, expertise, experience and competence. This is reflected through its selection, interview and review processes whereby prior to appointment, each of the Company’s Directors and/or Senior Management are assessed whether he/she has the requisite character, experience, integrity, competence and time to effectively discharge his/her role and responsibilities. Any prospective candidates for directorship who are active politicians shall not be considered to prevent doubts from being cast on the integrity and governance of the Company.

In addition to these criteria, when considering new candidates to fill a vacancy or to add to its Board, the Company will apply its Board Diversity Policy which generally advocates that the Board recognises the value of appointing individual Directors who bring diverse opinions, skills, experience and backgrounds, characteristics, and competencies to its discussions and decision-making processes. As such, it is the Board’s policy during the selection of new Directors and Senior Management to take into account the diversity of the candidate’s skills, experience, age and cultural background and gender in line with the Board Skills and Diversity Matrix. The Company’s Board Diversity Policy is available on the Company’s website at [www.mbmr.com.my](http://www.mbmr.com.my).

NOMINATION AND ELECTION PROCESS

The NRC regularly reviews the required qualifications, skills and attributes that would form part of a Director’s profile. This profile is used to assess the qualifications and suitability as Executive or Non-Executive Directors of candidates sourced from multiple channels, including but not limited to suggestions from Board members, major shareholders, senior management and independent service providers / search firms. All new candidates will be assessed by the NRC taking into account the following factors prior to its recommendation to the Board:

- Skills, knowledge, expertise and experience, time, commitment, character, professionalism and integrity of the candidate (including the requirement that the candidate is not an active politician) in line with the fit and proper criteria as guided by the Company’s Fit and Proper Policy which is made available on the Company’s website at [www.mbmr.com.my](http://www.mbmr.com.my);
- Disclosures of any interest, position or relationship that may result in a conflict of interest or might influence, or reasonably be perceived to influence in a material respect the capacity to bring independent judgement to bear on issues before the Board and to act in the best interests of the Company as a whole; and
- Criteria of independence as prescribed in the Listing Requirements of Bursa Securities (for Independent Directors).

On appointment, Directors take part in an induction programme where they receive a presentation package that provides them with a business and financial overview of the Company as well as latest information about the Group. This is supplemented by visits to key locations and meetings with senior executives. Directors are also advised, upon appointment, of their legal and other obligations as a Director of a public listed company.

Further, in accordance with the Company’s Constitution, one-third of the Directors shall retire by rotation annually and all Directors shall retire from office once at least in each three years but shall be eligible for re-election. Prior to re-election, the NRC shall ensure that its recommendation shall be subject to a satisfactory performance evaluation outcome of the individual Director (which includes a fit and proper assessment in accordance with the Company’s Directors’ Fit and Proper Policy), with due consideration to the tenure of the Director and the extent to which the Director’s expertise, skills, knowledge, and experience interplay with those of other Board members, as well as their roles as committee members. The Board will also include its statement of support in the notes accompanying the notice of general meeting together with any information shareholders may require in making an informed decision on the appointment.

BOARD DEVELOPMENT

All Directors of the Company have attended the Mandatory Accreditation Programme as required by the Bursa Securities. The Directors continue to update their knowledge and enhance their skills through appropriate continuing education programmes. This will enable the Directors to effectively discharge duties and sustain active participation in Board deliberations.

The Board, via the recommendations of the NRC, evaluates and determines the training needs of the Directors. In addition, individual Directors may also attend additional training courses according to their respective needs as a director or a member of Board Committees on which they serve.

The Board is notified regularly on training programmes or workshops conducted by various recognised / accredited training providers for its consideration of participation. The Board also receives updates to the Listing Requirements of Bursa Securities from the Company Secretaries from time to time. The external auditors and the Group Chief Financial Officer also brief the Directors on any changes to the Malaysian Financial Reporting Standards that would affect the Group’s financial statements. Additionally, the Board ensures that it stays abreast and understands the sustainability issues relevant to the Company by attending sustainability seminars and training.

Details of the training attended by the Directors in 2024 are listed on pages 60 to 62.

ANNUAL ASSESSMENT

The NRC carries out an annual assessment of the effectiveness of the Board as a whole, the performance of each of the Board Committees and each individual director against a set of criteria (collectively referred to as the “Board Effectiveness Evaluation” or “BEE”) and is conducted by way of questionnaires completed by the Directors on a confidential basis. The outcome of the BEE is subsequently prepared and presented to the NRC and the Board in February each year in respect of the preceding calendar year’s assessment.

For the BEE FYE 2024, the NRC engaged KPMG Management & Risk Consulting Sdn Bhd (“KPMG”) as the independent experts for the evaluation. KPMG carried out the BEE exercise using the following approach:

PRINCIPLE A

BOARD LEADERSHIP AND EFFECTIVENESS

The outcome of the BEE on the Board, Board Committees and individual Directors’ performance for FYE 2024 as presented by KPMG was as follows:

Overall, the Board considered the outcome of the BEE satisfactory in terms of its effectiveness and will continue to monitor and review its agreed measures towards further improving its effectiveness.

ASSESSMENT AND TENURE OF INDEPENDENT DIRECTORS

The independence of Directors is assessed against a list of criteria and materiality thresholds that have been incorporated into the Board Charter. Each Director who is listed as an Independent Director complies with the relevant criteria for independence set out in the Board Charter in accordance with the Listing Requirements of Bursa Securities.

The Board Charter provides that the tenure of an Independent Directors shall not exceed a cumulative term of nine years. Nonetheless, upon completion of the nine years, the Independent Director may continue to serve the Board as a Non-Independent Director.

As of the date of this CG Overview Statement, there are three (3) Independent Directors on the Board. None of them have served the Board for cumulative terms of nine (9) years.

REMUNERATION OF DIRECTORS AND SENIOR MANAGEMENT

The NRC and the Board has adopted a Board Remuneration Policy which provides clear and guiding principles in determining the remuneration for the Board of Directors and Senior Management in order to attract, retain and motivate talented and qualified individuals and to align their interests with the interest of the shareholders and the long-term business strategies of MBMR and its subsidiaries. The Board Remuneration Policy is reviewed on an annual basis and is made available on the Company’s website at [www.mbmr.com.my](http://www.mbmr.com.my).

The Board’s remuneration is governed through a clearly defined process wherein the NRC makes recommendations to the Board on an annual basis for deliberation. Thereafter, the Board shall upon deliberation make recommendations on the Directors’ remuneration (including any benefits payable) as it deems appropriate to the shareholders for approval at the Annual General Meeting (“AGM”).

For Executive Directors (where applicable) and Senior Management, the Board shall decide on the appropriate remuneration package which is structured in a manner that it is competitive with variable components that are linked to overall Company performance, as recommended by the NRC.

The remuneration packages for the Directors and Senior Management of the Company comprise the following elements:

To facilitate the NRC in proposing a fair and competitive remuneration for the Directors and Senior Management, a market and/or industry benchmark study against similar organisations in the industry, size and geographies which MBMR operates in will be conducted every three (3) years.

PRINCIPLE A

BOARD LEADERSHIP AND EFFECTIVENESS

The details of the remuneration of Directors of the Company for FYE 2024 are set out in the Company’s Corporate Governance Report 2024 which is available on the Company’s website. Additionally, detailed remuneration of the GCEO has also been disclosed in page 44 of the Corporate Governance Report 2024 in line with recent amendments to the Listing Requirements of Bursa Securities.

While the Board advocates transparency to all stakeholders of the Company, it is of the view that a detailed remuneration disclosure of the Company’s top senior management personnel is sensitive information and would not be in the best interest of the Group given the competitive human resource environment which may result in talent retention issues.

As an alternative to the prescribed MCCG practice, the Company discloses the aggregate remuneration of its top five (5) Senior Management for FYE 2024 amounting to RM2,720,000 in bands of RM50,000 as per the table below.

| RM’000                  | 301 – 350 | 351 – 400 | 401 – 450 | 701 – 750 | 1,001 – 1,050 |

PRINCIPLE B

EFFECTIVE AUDIT AND RISK MANAGEMENT

AUDIT COMMITTEE INDEPENDENCE AND EFFECTIVENESS

The Board’s AC consists solely of Independent Non-Executive Directors which is crucial in ensuring objectivity and independence of the AC. The AC is chaired by Pn. Nik Fazila binti Nik Mohamed Shihabuddin, adopting Practice 9.1 of the MCCG as she is not the Chairman of the Board. This separation allows an objective review by the Board of the AC’s findings and recommendations.

Pn. Nik Fazila binti Nik Mohamed Shihabuddin is a qualified Chartered Accountant from the Malaysian Institute of Certified Public Accountants (MICPA) and the Malaysian Institute of Accountants (MIA), and has extensive experience in the fields of accounting, finance and business assurance.

Mr. Ng Seng Kong, the Non-Independent Non-Executive Director, who ceased as a member of the AC on 16 December 2024, is a fellow member of the Association of Chartered Certified Accountants (ACCA) and Chartered Institute of Management Accountants (CIMA), and a member of Chartered Global Management Accountant (CGMA).

AC ROLES AND RESPONSIBILITIES

The roles and responsibilities of the AC are detailed in the AC Terms of Reference, which is made available on the Company’s website at [www.mbmr.com.my](http://www.mbmr.com.my). For this CG Overview Statement, a summary of the AC’s main responsibilities is highlighted as follows:

(1) To ensure the integrity of the Company’s financial statements and disclosures as well as the related accounting and financial reporting processes

The AC reviews all quarterly announcements and financial statements along with related notes to ensure that they are complete, in accordance with the applicable approved accounting standards and other legal and regulatory requirements and give a true and fair view of the Company’s financial position.

As part of its review of the year-end financial statements, the AC meets at least once with the external auditors in the absence of Management to facilitate a frank discussion on audit challenges or concerns, if any.

The AC members also participated in training and educational programmes as detailed in the Summary of Directors’ Training for 2024 on pages 60 to 62 of this Annual Report in order to keep abreast of relevant developments in accounting and auditing standards, practices and rules.

Ms. Chin Min Ming, who was appointed as an Independent Non-Executive Director on 16 December 2024, was concurrently appointed as a member of the AC in place of Mr. Ng Seng Kong. Ms. Chin Min Ming is a Certified Information Systems Security Professional (CISSP) and an experienced strategist and consultant specialising in digital transformation, strategic innovation and technology investment.

With the appointment of Ms. Chin Min Ming, the AC now consists solely of Independent Directors, adopting the Step Up Practice 9.4 of the MCCG. The AC members possess a mixture of requisite financial literacy, business experience and specialised knowledge to carry out their duties and responsibilities under the AC’s Terms of Reference. The qualification and experience of each current AC member is detailed in the Board of Directors’ Profile on pages 38 to 41 of this Annual Report.

For FYE 2024, the Company does not have any former partner of the external audit firm of the Company that has been appointed to the AC. The Company’s Policy on External Auditors and the Terms of Reference of the AC provide that any former partner of the Company’s external audit firm or its affiliates, must have observed a cooling-off period of at least three (3) years before one is eligible for appointment as AC member.

PRINCIPLE B

EFFECTIVE AUDIT AND RISK MANAGEMENT

(2) To be the point of reference in relation to the appointment of the external auditors

The AC reviews the appointment, terms of engagement and performance of the external auditors prior to making recommendations to the Board on its appointment. The AC assesses the suitability, objectivity and independence of the external auditors annually by way of an assessment form.

During FYE 2024, the AC was satisfied with the outcome of the assessment on the suitability, objectivity and independence of the Company’s external auditors. The AC also obtained written assurance from the external auditors confirming that they are in compliance with the independence requirements set out in the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants throughout the conduct of the audit engagement as well as through Deloitte’s 2024 Transparency Report.

Further details on the AC’s policies and procedures in relation to engagement with the external auditors are stipulated in the AC’s Terms of Reference, which is available on the Company’s website at [www.mbmr.com.my](http://www.mbmr.com.my).

(3) To engage and monitor the performance of the internal audit function

The Group’s Internal Audit function for FYE 2024 was outsourced to a professional service firm, BDO Governance Advisory Sdn Bhd (“BDO”), who reported directly to the AC. BDO carried out the reviews based on the internal audit plan and scope approved by the AC.

The AC is tasked with reviewing the terms of engagement and the performance of the internal audit function. The AC evaluates the adequacy of the scope, functions, competencies, resources and effectiveness of BDO in its capacity of carrying out the Group’s internal audit function.

Through independent reviews and assessment, BDO was able to provide objective assurances to the AC on the state of internal control systems within the Group’s operations.

(4) To review related party transactions, conflict of interest situations and related procedures

The AC is tasked with the review of related party transactions, conflict of interest situations and related procedures to ensure transactions carried out are not prejudicial to the interests of the Company or its non-major/substantial shareholders.

During FYE 2024, the AC reviewed the circular to shareholders for the purpose of seeking mandate for recurrent related party transactions (“RRPTs”) at the 30<sup>th</sup> AGM as well as the quarterly reports on the RRPTs of the Group. The AC took note that the RRPTs were well within the mandate from the shareholders.

The AC also reviewed quarterly reports of any conflict of interest situations which arose, persist or may arise within the Group in FYE 2024 and was satisfied that the measures taken to resolve, eliminate or mitigate such conflicts were appropriate and sufficient.

Further commentary of the internal audit function of the Company and other activities of the AC during FYE 2024 are provided in the Statement on Risk Management and Internal Control on pages 63 to 67 and the Report of Audit Committee on pages 68 to 71, and the CG Report which is available on the Company’s website at [www.mbmr.com.my](http://www.mbmr.com.my).

RISK MANAGEMENT AND INTERNAL CONTROL SYSTEMS

The Board is responsible in overseeing the establishment and implementation of the risk management and internal control systems for the Group. While the Board remains responsible for the risk management and internal control oversight as a whole, it has delegated to the Risk Management and Sustainability Committee (“RMSC”), the responsibility to review the Group’s risk management and internal control systems and oversee the development, implementation and execution of the Group’s risk management processes.

The Board has established the Enterprise Risk Management (“ERM”) Policy and Framework to ensure that risks are effectively managed to achieve the Group’s business objectives. The ERM Policy and Framework is aligned with ISO 31000:2018 Risk Management Guidelines which provide a comprehensive guidance and consistent approach in the implementation of risk management across the Group. The ERM Policy and Framework incorporates the processes relating to the identification, analysis, evaluation, treatment, monitoring, review, recording, reporting, communication and consultation of the Group’s risks and controls to safeguard the Group from potential losses and to support the Group in achieving its business objectives.

The Group, through the Group Risk Management and Sustainability Department, maintains detailed risk registers which are reviewed and updated on quarterly basis. Significant risks and the corresponding mitigation plans are reported, reviewed and deliberated at RMSC meetings.

Further commentary on risk management and internal control systems of the Group is provided in the Statement on Risk Management and Internal Control on pages 63 to 67.

PRINCIPLE C

INTEGRITY IN CORPORATE REPORTING AND  
MEANINGFUL RELATIONSHIP WITH STAKEHOLDERS

CONTINUOUS DIALOGUE BETWEEN THE COMPANY AND  
SHAREHOLDERS/INVESTORS

As part of the Board’s responsibility in developing and implementing an investor relations programme, formal and informal dialogues were held between Senior Management and analysts/fund managers throughout the year. Permissible disclosures are made to explain the Group’s performance and major development programmes.

The Company is in compliance with the disclosure requirements as set out in the Listing Requirements of Bursa Securities such as nature of information that can be released so as to avoid instances of disseminating unpublished price-sensitive information. The GCEO along with the Group Chief Financial Officer conduct briefings with the analysts and fund managers at least twice yearly to provide updates on the Group’s financial and sustainability performance.

ANNUAL GENERAL MEETINGS

The AGM is the principal forum for dialogue with shareholders. The Company makes every effort to encourage maximum participation of shareholders at the AGM and Extraordinary General Meetings. Notice of the AGM is sent out to shareholders at least 28 days before the date of meeting in compliance with the MCGG, Companies Act 2016 and the Listing Requirements of Bursa Securities.

With the exception of emergencies or unforeseen circumstances, all Directors and Senior Management will attend all meetings with shareholders. Attendance is recorded by the Company Secretaries and recorded in the minutes of the meetings. Besides the ordinary agenda items for the AGM, the Board provides opportunities for shareholders to raise questions pertaining to the business activities of the Group. All Directors and Senior Management are available to provide meaningful responses to questions from the shareholders during these meetings.

For re-election of Directors, the Board ensures that necessary information is disclosed through the notice of meeting providing shareholders with relevant details about the Directors standing for re-election. The notice of a general meeting to consider special business is accompanied by explanatory notes which contain the necessary information to enable shareholders to make an informed decision. Such explanatory notes include the details and effects of any proposed resolution in respect of such business.

The Company’s 30<sup>th</sup> AGM on 30 May 2024 was held virtually through live streaming from the broadcast venue using the online meeting platform provided by Tricor Investor & Issuing House Services Sdn Bhd in Malaysia (“TIH”), the Company’s Share Registrar via the TIH Online website at <https://tiih.online> and shareholders participated (including posing questions to the Board via real time submission of typed texts) and voted remotely using the remote participation and voting (“RPV”) facilities provided by TIH.

Shareholders who were unable to participate in the AGM were allowed to appoint proxy(ies) to participate, speak and vote on their behalf via the RPV facilities.

## STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

This Statement on Risk Management and Internal Control is made in accordance with Paragraph 15.26 (b) of Main Market Listing Requirements (“Listing Requirements”) of Bursa Malaysia Securities Berhad (“Bursa Securities”) and guided by the Statement on Risk Management and Internal Control: Guidelines for Directors of Listed Issuers. This is also in line with Practice Note 9 issued by Bursa Securities. This Statement outlines the scope and implementation of the risk management and internal control systems within the Group during the year under review.

### BOARD'S RESPONSIBILITIES

The Board is responsible for overseeing the establishment and implementation of the risk management and internal control systems for the Group. While the Board remains responsible for risk management and internal control oversight, the Board has delegated to the Risk Management and Sustainability Committee (“RMSC”) and the Audit Committee (“AC”) the responsibility to oversee the development and implementation of the Group's risk management framework and internal control systems. The RMSC is responsible for reviewing the Group's risk management framework, processes and responsibilities to assess if they provide reasonable assurance that the Group's risks are being

### ENTERPRISE RISK MANAGEMENT FRAMEWORK

The Enterprise Risk Management (“ERM”) Policy and Framework has been established by the Board in accordance with ISO 31000:2018 Risk Management Guidelines which provide comprehensive guidance and a consistent approach in the implementation of risk management across the Group. The ERM Policy and Framework incorporates the processes relating to the identification, analysis, evaluation, treatment, monitoring, review, recording, reporting, communication and consultation of the Group's risks and controls. The elements of the Group's risk management process are as follows:

Based on the ERM Policy and Framework, the risk assessment process of identifying, analysing, evaluating and treating risks is established to safeguard the Group from potential losses and to support the Group in achieving its business objectives. The ERM Policy and Framework also defines the measurement used in determining the risk rating based on the likelihood parameters of the risk occurring and the impact parameters if the risk occurs.

In order to instil a proactive risk management practice, the Group Risk Management and Sustainability Department continuously engages with the subsidiaries and departments through risk review sessions. The objective of these exercises is to evaluate and validate the risk assessments, highlight any emerging risks and review the status of action plans implemented by the subsidiaries and departments.

RISK REPORTING STRUCTURE

The Group’s risk reporting structure facilitates the risk escalation process as well as providing assurance to the Board. Below is an overview of the Group’s reporting structure:

SIGNIFICANT RISKS

The Group continuously assesses the risks to the business throughout the year to ensure any potential threat and disruption are being mitigated. The table below outlines the key risks and the mitigation measures implemented by the Group:

INTERNAL CONTROL SYSTEMS

The key elements of the internal control systems that provides reasonable assurance against the occurrence of events that could prevent the achievement of the Group’s business objectives are as follows:

Board of Directors

The Board, in discharging its duties, has established the AC, the RMSC and the Nominating and Remuneration Committee (“NRC”) (collectively known as “Board Committees”). The Board Committees operate within the defined terms of reference approved by the Board. These terms of reference are reviewed annually to ensure that they are relevant and effective. The Board and Board Committees meet on a scheduled basis and additional meetings may be called by the Chairman of the Committees as and when required.

Policies and Procedures

The Group’s internal control policies and procedures are documented to ensure compliance with the business requirements and the relevant regulations. The Group’s policies and procedures are reviewed and updated on a continuous basis to ensure that any gaps in controls are addressed.

Internal Audit Function

The independent Internal Audit function reports directly to the AC and carries out the internal audit reviews based on the internal audit plan approved by the AC. The outcomes are presented to the AC at their quarterly meetings. Follow up reviews are carried out to assess the status of implementation of management action plans, which are based on internal audit recommendations. The findings from these follow up reviews are also highlighted to the AC at their quarterly meetings.

For the financial year ended 31 December 2024, the Group’s Internal Audit function was outsourced to BDO Governance Advisory Sdn Bhd (“BDO”), an independent professional service firm, who reports directly to the AC. Through independent reviews and assessment, BDO was able to provide objective assurances to the AC on the state and effectiveness of internal control systems within the Group’s operations.

Summary of the work carried out by the Internal Audit function during the financial year under review are set out on page 71 of the Annual Report.

Limits of Authority

The Group has established Limits of Authority (“LOA”) which defines the appropriate approving authority limits to govern its business decision process. The LOA sets out a clear line of accountability and responsibility which serves as reference in identifying the approving authority for various transactions including matters that require Board approval.

Business Plan and Budget

There is a budgeting and forecasting system in place that is governed by the policies and guidelines of the Group. The financial results of the companies of the Group are reported monthly in the management reports where variances are analysed against respective budgets and acted on in a timely manner. Where necessary, budgets are revised at mid-year, taking into account any changes in business and economic conditions.

Joint Ventures and Associates

The Group’s interests in joint ventures and associates are safeguarded by having Board representations in these entities. Such representations provide the Board with information for timely decision-making on the continuity of the Group’s investments based on the performance of the associated companies and joint ventures.

Whistleblowing

The Board has established and approved the Group’s Whistleblowing Policy aimed at providing an avenue for all employees and the public to report any improper conduct or criminal offences committed or about to be committed within the Group including, inter alia, suspected and/or known fraud, corruption, and other unlawful acts. The Whistleblowing Policy sets out the processes, procedures and appropriate channels which facilitate whistleblowing and provides the assurance of protection to the whistle blower.

Anti-Bribery and Anti-Corruption

The Board has approved and adopted the Group’s Anti-Bribery and Anti-Corruption Policy (“ABAC Policy”) that sets out the Group’s position on avoiding all forms of bribery and corruption practices in the Group’s daily operations. The ABAC Policy is developed based on the “T.R.U.S.T” Principles under the Guidelines on Adequate Procedures issued pursuant to Section 17A (5) of the Malaysian Anti-Corruption Commission Act 2009.

Code of Business Conduct and Ethics

The Board has approved and adopted the Group’s Code of Business Conduct and Ethics Policy that provides guidance on the standards of behaviour expected of directors and employees of the Group and where applicable, third parties, which include, but not limited to counterparties and business partners.

Conflict of Interest

The Board has approved and adopted the Group’s Conflict of Interest Policy that provides guidance on identifying, reviewing and managing any actual, potential and/or perceived conflicts of interest that may arise within the Group.

MONITORING AND REVIEW OF THE ADEQUACY AND EFFECTIVENESS OF THE RISK MANAGEMENT FRAMEWORK AND INTERNAL CONTROL SYSTEMS

The effectiveness of the Group’s risk management framework and internal control systems is monitored through the following:

- a) The Group Risk Management and Sustainability Department presents the risk report to the RMSC every quarter to provide an overview of the Group’s significant risks and their respective mitigation plans for RMSC’s review and recommendations prior to it being updated to the Board;

- b) Internal Audit conducts independent audits on the Group’s risk management and internal control systems. It also submits quarterly reports on internal control reviews to the AC. The recommendations from the internal control reviews are implemented by the Management as an improvement to the internal control systems;

- c) Review of the Group’s compliance and incident reporting to monitor the Group’s legal and regulatory compliance status;

- d) Review of the Group’s actual financial and operational performance against the planned budget and other key financial and operational performance indicators.

CONCLUSION

The Board is of the view that the current risk management and internal control systems in place throughout the Group are sufficient to safeguard the Group’s interests. There was no major internal control weakness that requires disclosure of this statement. The disclosures in this statement do not include the risk management practices and internal control systems of the Group’s associates.

In making this statement, the Board had received assurance from the GCEO and Group Chief Financial Officer that the risk management and internal control processes are operating adequately and effectively, in all material aspects for the reporting period.

The effectiveness of the Group’s risk management and internal control systems will continue to be reviewed and updated by the Board through the RMSC and AC in line with the changes in the operating environment.

REVIEW OF THE STATEMENT BY EXTERNAL AUDITORS

The external auditors have reviewed this Statement on Risk Management and Internal Control, in accordance with the Audit and Assurance Practice Guide 3 (“AAPG 3”) issued by the Malaysian Institute of Accountants. AAPG 3 does not require them to consider whether this Statement covers all risks and controls, or to form an opinion on the effectiveness of the Group’s risk. In accordance with the external auditors’ report issued to the Board, nothing has come to their attention that resulted in them believing that this Statement is inconsistent with their understanding of the processes adopted by the Board in reviewing the adequacy and integrity of the internal control and risk management systems of the Group.

This Statement on Risk Management and Internal Control is approved by the Board of Directors on 21 April 2025.

MEMBERSHIP OF THE AUDIT COMMITTEE (“AC”) AND ATTENDANCE

For the financial year ended 31 December 2024, the AC consists of three members who are all Non-Executive Directors with a majority of them being Independent Directors as follows:

The Group Chief Executive Officer and Group Chief Financial Officer were invited to the meetings to brief the AC on the activities within their respective areas of responsibility. At appropriate instances, the external and internal auditors and other key management personnel were also invited to attend the AC meetings as and when deemed necessary by the AC.

TERMS OF REFERENCE

The full content of the Terms of Reference can be accessed on the Company’s website at [www.mbmr.com.my](http://www.mbmr.com.my).

SUMMARY OF ACTIVITIES DURING THE YEAR

In 2024, the AC discharged its duties and responsibilities in accordance with its Terms of Reference.

The AC undertook the following activities during the financial year ended 31 December 2024:

- 1 FINANCIAL REPORTING
- Reviewed the financial statements and the quarterly announcements to Bursa Securities with emphasis on significant changes to accounting policies and practices, compliance with accounting standards and legal requirements, key judgements made by the Management, significant or unusual events or transactions, and material audit adjustments. This review was conducted before presenting the financial statements and announcements to the Board for approval and subsequent release to Bursa Securities.
  - Updated the Directors on any new Malaysian Financial Reporting Standards (“MFRS”) that may be adopted into the quarterly and annual financial reports of the Group.
- 2 EXTERNAL AUDIT
- Reviewed and discussed with external auditors on their audit plan, scope of work for the year and the audit procedures to be carried out.
  - Received updates on the amendments to the MFRS, including the newly effected standards for the current year and those set to take effect in the future periods.
  - Reviewed the Group’s audited financial statements together with external auditors’ audit findings and recommendations, focusing on the significant changes in the Group’s audited financial statements, amendments or newly effected MFRSs and their resulting impacts, if any. Assessed the steps taken to address key focus areas and the assurances provided by the Group’s employees to ensure appropriate actions have been properly implemented before reporting the external audit findings and recommending approval of the audited financial statements to the Board of Directors.
  - Received the external auditors’ 2024 Transparency Report, which outlines, among others, the firm’s governance and ownership structure, commitment to high quality audit and assurance services and independence policies.
  - Considered in consultation with Management, the Group’s audit fees and provision of non-audit services by the external auditors for 2024 for recommendation to the Board for approval.
  - Obtained written assurance from the external auditors confirming their compliance with the independence requirements set out in the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants throughout the conduct of the audit engagement.
  - Reviewed the suitability, independence, objectivity, and the performance of the external auditors prior to recommending their reappointment to the Board for approval.
  - A private session was held on 4 April 2024 between the AC and the external auditors without the presence of Management to discuss pertinent issues including the Management and staff’s responsiveness to the external auditors, their competency, resource adequacy, and the governance processes at the respective subsidiaries.
- 3 INTERNAL AUDIT
- Reviewed and approved the Group Internal Audit Plan (“IA Plan”) covering the activities and processes of the subsidiaries.
  - Discussed with internal auditors on their scope of work, adequacy of resources, management and employee cooperation and co-ordination with external auditors.
  - Reviewed the internal audit reports prepared by the internal auditors on the audit findings and state of internal control systems and any matters arising therefrom to ensure that appropriate actions in line with the audit recommendations have or will be taken to address any risks and weaknesses identified.
  - Received updates from the internal auditors on the follow-up audits and ensured all audit findings and remedial actions recommended in the internal audit reports have been properly addressed. The AC emphasised on the immediate resolution of any critical internal control lapses that could result in the loss of the Group’s assets.
  - Reviewed the performance of the internal auditors against the approved Group IA Plan; assessed the internal audit function’s resources and the best options to ensure continued efficiency in the operation of the Group’s internal audit function moving forward.
  - Assessed the independence and suitability of the outsourced internal auditors and evaluated their fee and scope of work before deciding on their re-appointment for the financial year 2025.

4 INTERNAL CONTROL AND REVIEWS OF STATEMENTS CONTAINED IN THE ANNUAL REPORT

- Provided oversight of the Company’s programme to review, benchmark, and enhance the Group’s business processes and Standard Operating Procedures.
- Reviewed the Group’s Statement on Risk Management and Internal Control and Report of the AC for inclusion in the Company’s Annual Report.
- Reviewed the reports of Management and the reports and recommendations of the internal and external auditors on areas of concern relating to the internal control systems of the Group and made the appropriate recommendations to the Board of Directors.

5 RELATED PARTY TRANSACTIONS AND CONFLICTS OF INTEREST (“COI”)

- Reviewed the proposed amendments and improvements to the Related Party Transactions Policy and recommended them to the Board for approval.
- Reviewed related party transactions entered by the Group and its subsidiaries to ensure that they were transacted in accordance with best practices and in compliance with the Listing Requirements of Bursa Securities and relevant accounting and financial reporting standards.
- Reviewed and approved the Circular to Shareholders seeking approval of the Group’s recurrent related party transactions (“RRPTs”) and reviewed reports on the RRPTs entered into by the Group with related parties within and outside of the shareholders’ mandate and took note that the RRPTs were within the mandate from the shareholders.
- Reviewed the COI Policy for recommendation to the Board for approval.
- Reviewed quarterly reports of any COI situations which arose, persisted or may arise within the Group in 2024, and was satisfied that the measures taken to resolve, eliminate or mitigate such conflicts were appropriate and sufficient.

The following COI with MBMR was disclosed and reviewed by the AC for the financial year ended 31 December 2024:

INTERNAL AUDIT FUNCTION

For the financial year ended 31 December 2024, the Group’s Internal Audit function was outsourced to BDO Governance Advisory Sdn Bhd (“BDO”), an independent professional service firm, which reported directly to the AC.

**Mr. Karthigayan Supramaniam**, the BDO’s Executive Director in charge of the Group’s internal audit for the financial year ended 31 December 2024, has over 19 years’ experience in internal audit and risk management in various industries including manufacturing, trading, construction, property development, aviation, and oil and gas. Mr. Karthigayan Supramaniam is a Certified Internal Auditor and Information Systems Auditor.

The Engagement team is led by an Associate Director with a team of professional staff that is assigned based on the scope of work required for each audit cycle.

The primary role of the Group’s Internal Audit function is to provide independent and objective findings to the AC on risk management, internal control, and governance, by assessing and evaluating the adequacy and effectiveness of the internal control systems implemented. The scope of work of the Group’s internal auditors is determined and approved annually by the AC who takes into consideration the feedback from the key management personnel within the Group on their respective areas of concern.

The Group’s Internal Audit function as guided by the **International Professional Practices Framework**, provides objective assurances to the AC on the state and effectiveness of internal control systems within the Group’s operations together with corresponding improvement recommendations. The risk management, internal control and governance processes comprise of the policies and procedures established to ensure:

- ✓ the achievement of business objectives;
- ✓ the appropriate assessment of risk and mitigation factors;
- ✓ the reliability of internal and external reporting, and accountability processes;
- ✓ compliance with the policies and procedures set by the Company; and
- ✓ compliance with applicable guidelines, laws, and regulations.

SUMMARY OF ACTIVITIES OF THE INTERNAL AUDITORS DURING 2024

During the financial year ended 31 December 2024, the Group’s internal auditors’ activities were as follows:

- Presented the risk-based IA Plan and internal audit fees to the AC.
- Conducted 7 audit assignments based on the approved IA Plan including:
  - ✓ Vehicle sales order to invoicing, sales management, aftersales service, inventory management, payroll and staff claims management for selected entities or outlets in the Motor Trading and Assembly Division; and
  - ✓ Procurement to payment and inventory management for all major entities in the Auto Parts Manufacturing Division.
- Highlighted and discussed the results of the audit findings with relevant key management personnel within the Group and the AC for appropriate action plans and process improvements.
- Conducted follow-up reviews to determine the progress and effectiveness of implementing the agreed management action plans.
- Reviewed and provided further recommendations on the Group’s policies and procedures to ensure adequate controls are in place.

The cost incurred for the Internal Audit function for the financial year ended 31 December 2024 was RM266,240.

The Report of Audit Committee was approved by the Board of Directors on 16 April 2025.

Upon approval by the shareholders, the dividend payment will be accounted for in equity as an appropriation of retained earnings during the financial year ending 31 December 2025.

RESERVES AND PROVISIONS

There were no material transfers to or from reserves or provisions during the financial year other than those disclosed in the financial statements.

ISSUE OF SHARES AND DEBENTURES

The Company did not issue any new shares or debentures during the financial year.

SHARE OPTIONS

No options have been granted by the Company to any parties during the financial year to take up unissued shares of the Company.

No shares have been issued during the financial year by virtue of the exercise of any option to take up unissued shares of the Company. As at the end of the financial year, there were no unissued shares of the Company under options.

OTHER STATUTORY INFORMATION

Before the financial statements of the Group and of the Company were prepared, the directors took reasonable steps:

- (a) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of allowance for doubtful debts and had satisfied themselves that all known bad debts had been written off and that adequate allowance had been made for doubtful debts; and
- (b) to ensure that any current assets which were unlikely to be realised in the ordinary course of business including the value of current assets as shown in the accounting records of the Group and of the Company had been written down to an amount which the current assets might be expected so to realise.

At the date of this report, the directors are not aware of any circumstances:

- (a) which would render the amount written off as bad debts or the amount of allowance for doubtful debts in the financial statements of the Company inadequate to any substantial extent; or
- (b) which would render the values attributed to current assets in the financial statements of the Group and of the Company misleading; or
- (c) which have arisen which would render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate; or
- (d) not otherwise dealt with in this report or financial statements of the Group and of the Company which would render any amount stated in the financial statements misleading.

At the date of this report, there does not exist:

- (a) any charge on the assets of the Group and of the Company which has arisen since the end of the financial year which secures the liabilities of any other person; and
- (b) any contingent liability of the Group and of the Company which has arisen since the end of the financial year.

No contingent or other liability has become enforceable, or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the directors, will or may substantially affect the ability of the Group and of the Company to meet their obligations when they fall due.

In the opinion of the directors, no item, transaction or event of a material and unusual nature has arisen in the interval between the end of the financial year and the date of this report which is likely to affect substantially the results of operations of the Group and of the Company in the financial year in which this report is made.

# INDEPENDENT AUDITORS’ REPORT TO THE MEMBERS OF MBM RESOURCES BERHAD

(Incorporated in Malaysia)

## Report on the Audit of the Financial Statements

### Opinion

We have audited the financial statements of **MBM RESOURCES BERHAD**, which comprise the statements of financial position of the Group and of the Company as at 31 December 2024, and the statements of profit or loss and other comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the year then ended, and notes to the financial statements, including material accounting policy information, as set out on pages 15 to 105.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Group and of the Company as at 31 December 2024, and of their financial performance and cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 2016 in Malaysia.

### Basis for Opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors’ Responsibilities for the Audit of the Financial Statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Independence and Other Ethical Responsibilities

We are independent of the Group and of the Company in accordance with the *By-Laws (on Professional Ethics, Conduct and Practice)* of the Malaysian Institute of Accountants (“By-Laws”) and the International Ethics Standards Board for Accountants’ *International Code of Ethics for Professional Accountants (including International Independence Standards)* (“IESBA Code”), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the Group and of the Company for the current year. These matters were addressed in the context of our audit of the financial statements of the Group and of the Company as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

| <p><u>Revenue recognition</u></p> <p>Revenue is recognised at an amount that reflects the consideration in the contracts to which the Group expected to be entitled in exchange for promised goods or services to the customer as and when the Group satisfied its performance obligation by transferring promised goods or services to the customers, which is when the customers obtain control of the goods or services at a point of time.</p> <p>We focused on this area as there is presumed significant risk with regards to revenue recognition of distribution of motor vehicles, and automotive parts and components sales not recorded in the appropriate accounting period and revenue represents the most significant item on the Group’s financial statements. Revenue being one of the key driver of the financial performance of the Group and large volume of transactions increase the inherent risk that revenue may not be recognised in the appropriate accounting period prior to the year end.</p> | <p>Our audit procedures, among others, included:</p> <ul style="list-style-type: none"><li>• Obtained an understanding of the relevant controls over the revenue recognition;</li><li>• Evaluated the design and implementation of the relevant controls and tested their operating effectiveness;</li><li>• Performed procedures to corroborate the timing of revenue recognition based on completion of performance obligations, and control of the related goods is transferred to the customer.</li></ul> |

We have determined that there is no key audit matter in the audit of the separate financial statements of the Company to communicate in our auditors’ report.

Information Other than the Financial Statements and Auditors’ Report Thereon

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements of the Group and of the Company and our auditors’ report thereon.

Our opinion on the financial statements of the Group and of the Company does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and of the Company, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and of the Company or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Directors for the Financial Statements

The directors of the Company are responsible for the preparation of financial statements of the Group and of the Company that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 2016 in Malaysia. The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of financial statements of the Group and of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Company, the directors are responsible for assessing the Group’s and the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or the Company or to cease operations, or has no realistic alternative but to do so.

Auditors’ Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors’ report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements of the Group and of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (a) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group’s and of the Company’s internal control.
- (b) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- (c) Conclude on the appropriateness of the directors’ use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group’s or the Company’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors’ report to the related disclosures in the financial statements of the Group and of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors’ report. However, future events or conditions may cause the Group or the Company to cease to continue as a going concern.
- (d) Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Company, including the disclosures, and whether the financial statements of the Group and of the Company represent the underlying transactions and events in a manner that achieves fair presentation.
- (e) Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

(Forward)

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine the matter that was of most significance in the audit of the financial statements of the Group and of the Company for the current year and is therefore the key audit matter. We describe these matters in our auditors’ report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In accordance with the requirements of the Companies Act, 2016 in Malaysia, we report that the subsidiaries of which we have not acted as auditors, are disclosed in Note 45 to the financial statements.

Other Matter

This report is made solely to the members of the Company, as a body, in accordance with Section 266 of the Companies Act, 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

2. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The financial statements of the Group and of the Company have been prepared in accordance with Malaysian Financial Reporting Standards (“MFRSs”), International Financial Reporting Standards and the requirements of the Companies Act, 2016 in Malaysia.

Application of Amendments to Malaysian Financial Reporting Standard

In the current financial year, the Group and the Company have adopted all the Amendments to MFRSs issued by the Malaysian Accounting Standards Board (“MASB”) that are effective for annual periods beginning on or after 1 January 2024.

|                     |                                                         |
|---------------------|---------------------------------------------------------|
| Amendments to:      |                                                         |
| MFRS 16             | Lease Liability in a Sale and Leaseback                 |
| MFRS 101            | Classification of Liabilities as Current or Non-current |
| MFRS 101            | Non-current Liabilities with Covenants                  |
| MFRS 107 and MFRS 7 | Supplier Finance Arrangements                           |

The adoption of these Amendments to MFRSs did not result in significant changes in the accounting policies of the Group and of the Company and has no significant effect on the financial performance or position of the Group and of the Company.

2. BASIS OF PREPARATION OF FINANCIAL STATEMENTS (CONTINUED)

<sup>2</sup> Effective for annual periods beginning on or after 1 January 2026, with earlier application permitted.  
<sup>3</sup> Effective for annual periods beginning on or after 1 January 2027, with earlier application permitted.  
<sup>4</sup> Effective date deferred a date to be determined and announced by MASB.

The directors anticipate that the abovementioned New Standards and Amendments to MFRSs will be adopted in the annual financial statements of the Group and the Company when they become effective. The adoption of these New Standards and Amendments to MFRSs may have an impact on the financial statements of the Group and the Company in the period of initial application. However, it is not practicable to provide a reasonable estimate of these effect of the adoption of the said New Standards and Amendments to MFRSs until the Group and the Company undertake a detailed review.

3. MATERIAL ACCOUNTING POLICIES

Basis of Accounting

The consolidated financial statements of the Group have been prepared under the historical cost convention unless otherwise indicated in this summary of accounting policies. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of MFRS 2 *Share-based Payment*, leasing transaction that are within the scope of MFRS 16 *Leases*, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in MFRS 102 *Inventories* or value-in-use in MFRS 136 *Impairment of Assets*.

3. MATERIAL ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting (continued)

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The material accounting policies are set out below:

Basis of Consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries). Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group’s accounting policies.

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation. Non-controlling interests in subsidiaries are identified separately from the Group’s equity therein. The interests of non-controlling shareholders may be initially measured either at fair value or at the non-controlling interests’ proportionate share of the fair value of the acquiree’s identifiable net assets.

The choice of measurement basis is made on an acquisition-by-acquisition basis. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interests’ share of subsequent changes in equity.

Subsidiaries

Investments in subsidiaries which are eliminated on consolidation, are stated at cost less impairment losses, if any, in the Company’s separate financial statements.

3. MATERIAL ACCOUNTING POLICIES (CONTINUED)

Investment in Associates and Joint Ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of associates or joint ventures are incorporated in these consolidated financial statements using the equity method of accounting.

Under the equity method, investment in associate and joint venture is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group’s share of the profit or loss and other comprehensive income of the associate and joint venture. When the Group’s share of losses of an associate or a joint venture exceeds the Group’s interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group’s net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture. On acquisition of the investment in an associate or a joint venture, any excess of the cost of the investment over the Group’s share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group’s share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

The requirements of MFRS 136 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group’s investment in associate or a joint venture. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with MFRS 136 as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs to sell) with its carrying amount. Any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with MFRS 136 to the extent that the recoverable amount of the investment subsequently increases. When a Group entity transacts with an associate or joint venture of the Group, profits and losses resulting from the transactions with the associate or joint venture are recognised in the Group’s consolidated financial statements only to the extent that the Group’s interest in the associate or joint venture is not related to the Group.

Revenue Recognition

Revenue from contracts with customers

Revenue is recognised when or as a performance obligation in the contract with customer is satisfied, i.e. when the “control” of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation is a promise to transfer a distinct goods or service (or a series of distinct goods or services that are substantially the same and that have the same pattern of transfer) to the customer that is explicitly stated in the contract or implied in the Group’s customary business practices.

3. MATERIAL ACCOUNTING POLICIES (CONTINUED)

Revenue from contracts with customers (continued)

Revenue is measured at the amount of consideration to which the Group and the Company expect to be entitled in exchange of transferring the promised goods or services to the customers, excluding amounts collected on behalf of third parties such as sales taxes or goods and services taxes. If the amount of consideration varies due to discounts, rebates, refunds, credits, incentives, penalties or other similar items, the Group and the Company estimate the amount of consideration to which they will be entitled based on the expected value or the most likely outcome. If the contract with customer contains more than one performance obligation, the amount of consideration is allocated to each performance obligation based on the relative stand-alone selling price of the goods or services promised in the contract.

The revenue is recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is subsequently resolved.

The control of the promised goods or services may be transferred over time or at a point in time. The control over the goods or services is transferred over time and revenue is recognised over time if:

- the customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs;
- the Group’s performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- the Group’s performance does not create an asset with an alternative use and the Group has an enforceable right to payment for performance completed to date.

Revenue for performance obligation that is not satisfied over time is recognised at the point in time at which the customer obtains control of the promised goods or services.

(i) Sales of Goods - Motor Vehicles

The Group’s primary activity is marketing and sales of motor vehicles. Revenue is recognised when the control of the goods has transferred, being when the vehicle is registered in the name of the customer, delivered to the customer or invoice acknowledged by customer. Following the registration, delivery or acknowledgement, the customer has full discretion over the manner of the uses of the vehicle and the Group is entitled to the payment of the vehicle.

(ii) Sales of Goods - Manufactured Auto Parts

The Group manufactures and sells auto parts and components.

For the sale of manufactured auto parts, revenue is recognised by the Group at a point in time when control of the goods underlying the performance obligation is transferred to the customers.

(iii) Sales of Services

The Group provides aftersales services including vehicle repairs and maintenance, provision for insurance services as agent and property management and maintenance services. Revenue from these services are recognised when the services are performed.

When the Group acts in the capacity of an agent rather than as principal in a transaction, the revenue recognised is the net amount of commission earned by the Group.

3. MATERIAL ACCOUNTING POLICIES (CONTINUED)

Other Revenue

(i) Dividend Income

Dividend income is recognised when the Group’s and the Company’s right to receive payment is established.

(ii) Interest Income

Interest income is recognised when it is probable that the economic benefits will flow to the Group and the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset’s net carrying amount on initial recognition.

(iii) Rental income

Rental income is recognised on a straight-line basis over the term of the lease. The aggregate cost of incentives provided to lessees is recognised as a reduction of rental income over the lease term on a straight-line basis.

Impairment of Non-financial Assets Excluding Goodwill

At the end of each reporting period, the Group reviews the carrying amounts of its non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Non-Current Assets Held for Sale

Non-current assets are classified as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. For this to be the case, the asset must be available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such assets and its sale must be highly probable.

The sale is expected to qualify for recognition as a completed sale within one (1) year from the date of classification. However, an extension of the period required to complete the sale does not preclude the assets from being classified as held for sale if the delay is caused by events or circumstances beyond the control of the Group and there is sufficient evidence that the Group remains committed to its plan to sell the assets.

Immediately before the initial classification as held for sale, the carrying amounts of the non-current assets are measured in accordance with applicable MFRSs. On initial classification as held for sale, non-current assets (other than investment properties, deferred tax assets, employee benefits assets, and financial assets carried at fair value) are measured at the lower of carrying amount before the initial classification as held for sale and fair value less costs to sell. The differences, if any, are recognised in profit or loss as impairment loss.

Non-current assets held for sale are classified separately on the face of the statements of financial position and are stated at the lower of carrying amount immediately before initial classification and fair value less costs to sell and are not depreciated. Any cumulative income or expense recognised directly in equity relating to the non-current asset classified as held for sale is presented separately.

If the Group has classified an asset as held for sale but subsequently the criteria for classification is no longer met, the Group ceases to classify the asset as held for sale. The Group measures a non-current asset that ceases to be classified as held for sale at the lower of:

- (a) its carrying amount before the asset was classified as held for sale, adjusted for any depreciation, amortisation or revaluations that would have been recognised had the asset not been classified as held for sale; and
- (b) its recoverable amount at the date of the subsequent decision not to sell.

Financial Instruments

Financial assets and financial liabilities are recognised when the Group and the Company become a party to the contractual provision of the instrument.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit and loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability. The transaction costs directly attributable to the acquisition of financial assets and financial liabilities at fair value through profit or loss are immediately recognised in the statement of profit or loss. Where the fair value of a financial asset at initial recognition is different from its transaction price, the difference between the fair value and the transaction price is recognised as a gain or loss in the statement of profit or loss. However, trade receivables that do not contain a significant financing component are measured at transaction price.

Impairment of financial assets

Loss allowance for expected credit losses is recognised for financial assets measured at amortised cost and fair value through other comprehensive income. The Group and the Company recognise life time expected credit losses for all trade receivables that do not constitute a financing transaction. For financial assets whose credit risk has not significantly increased since initial recognition, loss allowance equal to twelve months expected credit losses is recognised. Loss allowance equal to the lifetime expected credit losses is recognised if the credit risk on the financial instruments has significantly increased since initial recognition. The impairment losses and reversals are recognised in the statement of profit or loss.

Derecognition of financial assets

The Group and the Company derecognise a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group and the Company neither transfer nor retain substantially all the risks and rewards of ownership and continue to control the transferred asset, the Group and the Company recognise the retained interest in the asset and an associated liability for amounts it may have to pay. If the Group and the Company retain substantially all the risks and rewards of ownership of a transferred financial asset, the Group and the Company continue to recognise the financial asset and also recognise a collateralised borrowing for the proceeds received. On derecognition of a financial asset (except for financial assets measured at FVTOCI), the difference between the carrying amount and the consideration received is recognised in the statements of profit or loss.

3. MATERIAL ACCOUNTING POLICIES (CONTINUED)

Financial Instruments (continued)

(b) Financial Liabilities and Equity Instruments

Classification as debt or equity

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group and the Company are recognised at the proceeds received, net of direct issue costs.

Financial liabilities

Trade and other payables are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost, using the effective interest rate method where the time value of money is significant. Interest bearing bank loans, overdrafts and issued debt are initially measured at fair value and are subsequently measured at amortised cost using the effective interest rate method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in the statement of profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or a shorter period, to the net carrying amount on initial recognition.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group’s obligations are discharged, cancelled or they expire. The differences between the carrying amount of the financial liability derecognised and the consideration paid is recognised in the statement of profit or loss.

Financial guarantee contract liabilities

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contract liabilities are initially measured at their fair values and, if not designated as at FVTPL, are subsequently measured at the higher of:

- The amount of the impairment loss determined in accordance with MFRS 9; and
- The amount initially recognised less, where appropriate, cumulative amortisation recognised in accordance with the revenue recognition policies set out above.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

(i) Critical judgements in applying the Group’s accounting policies

In the process of applying the Group’s accounting policies, the directors are of the opinion that there are no instances of application of judgement which are expected to have significant effect on the amounts recognised in the financial statements except as disclosed below:

(a) Classification between investment properties and property, plant and equipment

The Group has developed certain criteria based on MFRS 140 *Investment Property* in making judgement whether a property qualifies as an investment property. Investment property is a property held to earn rentals or for capital appreciation or both.

Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. If these portions could not be sold separately, the property is an investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes.

(ii) Key sources of estimation uncertainty

The directors believes that there are no key assumptions made concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year except as disclosed below:

(a) Allowance for expected credit losses

Allowance for expected credit loss is made by an allowance matrix to measure expected credit losses (“ECLs”) of receivables. A considerable amount of judgement is required in assessing the loss rates, which are based on actual credit loss experience. The Group also considers differences between (a) economic conditions during the period over which the historic data has been collected, (b) current conditions and (c) the Group’s view of economic conditions over the expected lives of the receivables. If the financial conditions of the customers with which the Group deals were to deteriorate, resulting in an impairment of their ability to make payments, additional allowance may be required. Details are disclosed in Notes 27, 28 and 29.

(b) Impairment of investment in subsidiaries

The Company reviews the carrying amount of investment in subsidiaries. The Company assesses impairment indicator for the investment in subsidiaries and if there is any indicator of further impairment or reversal of impairment, the management will compute the recoverable amount of the investment in subsidiaries based on the higher of its fair value less cost of disposal and its value in use. The carrying amount of investment in subsidiaries as of 31 December 2024 is RM405,896,000 (2023: RM420,658,000). Impairment loss and impairment loss no longer required amounting to RM14,762,000 (2023: RM100,000) and RMNil (2023: RM3,860,000) have been recognised in the profit or loss during the current year. Further details are disclosed in Note 19.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)

(ii) Key sources of estimation uncertainty (continued)

(c) Impairment of investment in a joint venture

The Group reviews the carrying amount of investment in a joint venture. The Group assesses impairment indicator for the investment in joint venture and if there is any indicator of further impairment or reversal of impairment, the management will compute the recoverable amount of the investment in joint venture based on the value in use. The carrying amount of investment in a joint venture as of 31 December 2024 is RM96,105,000 (2023: RM92,000,000) and an accumulated impairment loss of RM31,030,000 (2023: RM31,030,000) has been recognised.

(d) Allowance for slow-moving inventories and write down of inventories to net realisable value

Reviews are made periodically by management on damaged, obsolete and slow-moving inventories. Management analyses the current market and economic trends and also the aging when assessing the allowance for slow-moving inventories. These reviews require judgement and estimates. Possible changes in these estimates could result in revisions to the valuation of inventories. Details are as disclosed in Note 26.

- (a) In 2023, the Group determined that certain assets with net carrying amount of RM1,496,000 no longer met the criteria based on MFRS 116 to qualify as property, plant and equipment and has transferred the said assets to investment properties.
- (b) Freehold land and capital work-in-progress are not depreciated. Depreciation of other property, plant and equipment is computed on the straight-line method to write down the cost of the various property, plant and equipment to their residual values over their estimated useful lives at the following annual rates:

| Direct operating expenses from property that generated rental income        | 1,668          | 1,339          |
| Direct operating expenses from property that did not generate rental income | 388            | 140            |

(b) Fair value of the investment properties of the Group as of 31 December 2024 is estimated at RM197,619,000 (2023: RM197,593,000) based on directors' assessment of the current prices in an active market for the respective properties within each vicinity.

The fair value of the Group's investment properties is categorised into Level 3 of the fair value hierarchy.

The fair value of investment properties at Level 3 is determined by reference to previous sales of similar properties in the vicinity on a price per square feet basis. Any changes in the price per square feet would result in a higher or lower fair value of the investment properties.

(c) Investment properties are carried at cost less accumulated depreciation and any impairment losses. Freehold land is not depreciated. Buildings are depreciated on the straight-line method at annual rates of 1% to 5%.

Details of the subsidiaries are disclosed in Note 45.

The carrying amount of the investment in subsidiaries is assessed for impairment during the financial year and the recoverable amount of the investment in subsidiaries is determined based on the higher of its fair value less costs of disposal and value in use of the subsidiaries. An impairment loss is recognised immediately in profit or loss if the recoverable amount is less than carrying amount. An earlier provided impairment loss is reversed when recoverable amount is more than the carrying amount less accumulated impairment loss.

The Company had assessed the recoverable amount of investment in subsidiary companies based on the net assets of these subsidiary companies. The recoverable amount was determined based on adjusted net assets attributable to ordinary shares at the end of the financial year. As a result, the Company recognised an impairment loss of RM14,762,000 (2023: RM100,000) during the financial year.

During the financial year, Summit Vehicle Works Sdn Bhd, a wholly owned subsidiary of the Company, had been dissolved by Members' Voluntary Winding-Up.

The tax effects of deductible temporary differences, unused tax losses and unabsorbed capital allowances which would give rise to net deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences, unused tax losses and unabsorbed capital allowances can be utilised. As of 31 December 2024, the estimated amount of deductible temporary differences, unused tax losses and unabsorbed capital allowances, for which the net deferred tax assets is not recognised in the financial statements of the Group due to uncertainty of realisation, is as follows:

| The Group                     | 2024<br>RM'000 | 2023<br>RM'000 |
|-------------------------------|----------------|----------------|
| Unused tax losses             | 229,220        | 230,225        |
| Unabsorbed capital allowances | 96,187         | 96,322         |
| Other temporary differences   | 40             | 2,585          |

The unabsorbed capital allowances and other temporary differences do not expire under the current tax legislation.

25. GOODWILL ON CONSOLIDATION

|                              | The Group<br>2024<br>RM'000 | 2023<br>RM'000 |

| At beginning and end of year | 1,104                       | 1,104          |

Impairment test for goodwill

Goodwill has been allocated to the Group's cash generating units ("CGUs") identified according to the particular business segment as follows:

|                                                                     | The Group<br>2024<br>RM'000 | 2023<br>RM'000 |

| Manufacturing of automotive parts and components                    | 436                         | 436            |
| Trading of motor vehicles, spare parts and other related activities | 668                         | 668            |
|                                                                     | 1,104                       | 1,104          |

The Group has concluded that no impairment of the above goodwill is needed in the current financial year as the operations have not deviated materially from that achieved in the previous financial year and any write down in goodwill, if necessary, to its recoverable amount is unlikely to be material to the Group's financial statements.

Cost of inventories recognised as cost of sales of the Group amounted to RM2,180,097,000 (2023: RM2,121,331,000).

Inventories are stated at the lower of cost and net realisable value.

Cost is determined using the specific identification method for vehicles and weighted average method for parts and consumables. The cost of raw materials comprises cost of purchase plus the cost of bringing the inventories to their present location. The costs of finished goods and work-in-progress comprise costs of raw materials, direct labour, other direct costs and appropriate proportion of overheads based on normal operating capacity.

27. TRADE RECEIVABLES

Trade receivables disclosed above are classified as financial assets recognised at amortised cost.

The normal credit periods granted on sales of goods and services range from 14 days to 120 days (2023: 14 days to 120 days). Other credit terms are assessed and approved on a case-by-case basis. The Group measures the loss allowance for trade receivables at an amount equal to lifetime expected credit loss (ECL). The expected credit losses on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate, an assessment of both the current as well as the forecast direction of conditions at the reporting date.

Included in trade receivables of the Group is an amount of RM4,410,000 (2023: RM3,827,000) due from the subsidiary and associates of Perusahaan Otomobil Kedua Sdn. Bhd., an associate of the Group.

Trade receivables disclosed above include amounts (see below for aged analysis) that are past due at the end of the financial year but against which the Group has not recognised an allowance for expected credit losses because there has not been a significant change in credit quality and the amounts are still considered recoverable. The Group does not hold any collateral or other credit enhancements over these balances nor does it have a legal right of offset against any amounts owed by the Group to the counterparty.

The Group writes off a trade receivable when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery. None of the trade receivables that have been written off is subject to enforcement activities.

In determining the recoverability of a trade receivable, the Group also considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the end of the reporting period. The concentration of credit risk is limited due to the customer base being large and unrelated.

The Company operates an unfunded scheme for its eligible employees based on certain terms of the employment contract. The Company's net obligations in respect of the plan are calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods.

Daihatsu (Malaysia) Sdn. Bhd. ("DMSB"), a subsidiary of the Company, and DMSB's subsidiaries operate a funded, defined Retirement Benefit Scheme ("Scheme") for its eligible employees. Contributions to the Scheme are made to a separately administrated fund. Under the Scheme, eligible employees are entitled to retirement benefits of final salary on attainment of and up to the retirement age of 55.

35. RETIREMENT BENEFITS OBLIGATION (CONTINUED)

Provision for retirement benefits is made based on an actuarial valuation carried out periodically using the Projected Unit Credit Method. The latest actuarial valuation was undertaken on 26 January 2023.

The amounts recognised in the statements of financial position are determined as follows:

No analysis of geographical segments is presented as the Group operates principally in Malaysia.

Segment assets and liabilities: Segment assets include all operating assets used by a segment and consist principally of operating receivables, inventories and property, plant and equipment, net of allowances and provisions. Capital additions include the total cost incurred to acquire property, plant and equipment directly attributable to the segment. Segment liabilities include all operating liabilities and consist principally of account payables and accruals.

Investment in associates and a joint venture: Income from associates and joint venture are allocated as they are specifically attributable to business segments, and correspondingly investment in associates and joint venture is included as segment assets of the Group.

44. FINANCIAL RISK MANAGEMENT

Capital Risk Management

The objective of the Group's capital management is to safeguard the Group's ability to continue as a going concern while maximising the return to shareholders through the optimisation of debt and equity balance. The Group's overall strategy remains unchanged since 2023.

The capital structure of the Group consists of debts and equity.

The Group reviews the capital structure on a regular basis. As part of this review, the Group considers the cost of capital and the risks associated with each class of capital.

Debts are defined as borrowings and lease liabilities as disclosed in Notes 34 and 36 respectively.

Equity includes capital, reserves and non-controlling interests.

Material Accounting Policies

Details of the material accounting policies and methods adopted (including the criteria for recognition, the bases of measurement, and the bases for recognition of income and expenses), for each class of financial assets, financial liabilities and equity instruments are disclosed in Note 3.

44. FINANCIAL RISK MANAGEMENT (CONTINUED)

Financial Risk Management Objectives and Policies

The operations of the Group are subject to a variety of financial risks, including foreign exchange risk, interest rate risk, credit risk and liquidity risk. The Group’s principal objective in managing financial risk management is to minimise the Group’s exposure to these risks below a risk tolerance level approved by the Board and/or costs associated with the financing, investing and operating activities.

Various risk management policies are formulated and approved by the Board of Directors for observation in the day-to-day operations for controlling and managing the risks associated with financial instruments.

Foreign Exchange Risk Management

The Group undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuation arise.

The carrying amounts of the Group’s foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are disclosed in the respective notes.

Foreign currency sensitivity analysis

The Group is mainly exposed to the United States dollar.

The following table details the Group’s sensitivity to a 10% increase and decrease in the Ringgit Malaysia against the relevant foreign currency. 10% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management’s assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 10% change in foreign currency rates. A positive number below indicates a gain in the profit or loss where the Ringgit Malaysia strengthens 10% against the relevant currency. For a 10% weakening of the Ringgit Malaysia against the relevant currency, there would be a comparable impact on the profit or loss, the balances below would be negative.

|                      | The Group<br>2024<br>RM'000 | 2023<br>RM'000 |
|----------------------|-----------------------------|----------------|
| United States dollar | 20                          | 12             |

The Group’s sensitivity to foreign currency is mainly attributable to the exposure of cash and bank balances and outstanding payables, which are denominated in foreign currencies at the end of the reporting period.

In management’s opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the year end exposure does not reflect the exposure during the financial year.

44. FINANCIAL RISK MANAGEMENT (CONTINUED)

Credit Risk Management

Credit risk is the risk of loss that may arise on outstanding financial instruments should a counterparty default on its obligations. The Group is exposed to credit risk mainly from trade receivables and other receivables.

The Group extends credit to its customers based upon careful evaluation of the customers’ financial condition and credit history. The Group also ensures as far as practicable a large number of customers so as to limit high credit concentration in a customer or customers from a particular market.

The Group’s exposure to credit risk in relation to its trade and other receivables, should all its customers fail to perform their obligations as of 31 December 2024, is the carrying amount of these receivables as disclosed in statements of financial position.

The Group places its short-term deposits with credit worthy institutions. The carrying amount of financial assets in the financial statements, net of any provision of losses, represents the Group’s maximum exposure to credit risk without taking into account the value of any collateral or other security obtained.

The Group does not have any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics at the end of the reporting period. The Group defines counterparties having similar characteristics if they are related entities.

Interest Rate Risk Management

The Group is exposed to interest rate risk through the impact of rate changes on interest-bearing fixed deposits and short-term borrowings. The Group has in place prudent investment policies whereby excess funds are only invested in repurchase agreements or placed as fixed deposits with reputable commercial banks. The Group does not at anytime make placements in non-guaranteed, fluctuating, commercial papers and the like.

The Group’s exposures to interest rates on financial liabilities are detailed below. The sensitivity analyses below have been determined based on the exposure to interest rates for financial assets and liabilities at the end of the reporting period. For floating rate liabilities, the analysis is prepared assuming the amount of the liabilities at the end of the reporting period will remain unchanged for the whole year. A 100 basis point increase or decrease in the interest rate is used when reporting interest rate risk internally to key management personnel and represents management’s assessment of the reasonably possible change in interest rates.

If interest rates had been 100 basis points higher/lower and all other variables were held constant, the Group’s profit for the year ended 31 December 2024 would be increased/decreased by the following amounts:

44. FINANCIAL RISK MANAGEMENT (CONTINUED)

Liquidity Risk Management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Group's short-term, medium and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves and banking facilities by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The following tables detail the liquidity analysis for its financial liabilities based on the contractual maturity of these financial instruments. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest contractual date on which the Group can be required to pay.

When the amount payable is not fixed, the amount disclosed has been determined by reference to the fair value as of the end of the reporting period.

Financial Guarantee Contracts

Corporate guarantees are provided by the Group to a financial institution and a supplier for a joint venture. The directors are of the opinion that the corporate guarantees are not likely to be called upon and regard the value of the credit enhancement provided by the corporate guarantees as minimal.

The maximum exposure of the Group to credit risk in relation to the financial corporate guarantees given amount to RM470,000 (2023: RM437,000) at the end of the reporting period representing the outstanding banking facility and the payable balance to a supplier of the joint venture at the end of financial year.

Fair Values

The directors consider that the carrying amounts of the current financial assets and financial liabilities of the Group and the Company at the end of the reporting period approximate their fair values due to the relatively short-term maturities of these financial instruments.

The fair value of long-term liabilities is estimated by discounting the expected future cash flows using the current interest rates for borrowing with similar risk profiles. There is no material difference between the carrying amounts and the estimated fair values of long-term liabilities.

To consider and if thought fit, pass the following resolutions, with or without modifications, as Ordinary Resolutions of the Company:-

9.

**ORDINARY RESOLUTION**  
**PROPOSED RENEWAL OF SHAREHOLDERS’ MANDATE FOR THE AUTHORITY TO THE COMPANY TO PURCHASE ITS OWN SHARES OF UP TO TEN PER CENTUM (10%) OF THE TOTAL NUMBER OF ISSUED SHARES**

(Resolution 8)
- “THAT subject always to the Companies Act 2016 (“the Act”), the Constitution of the Company, the Main Market Listing Requirements of Bursa Malaysia Securities Berhad (“Bursa Securities”) (“Listing Requirements”) and all other applicable laws, guidelines, rules and regulations, the Company be and is hereby authorised, to the fullest extent permitted by law, to purchase such number of issued shares in the Company as may be determined by the Directors of the Company from time to time through Bursa Securities upon such terms and conditions as the Directors may deem fit and expedient in the interest of the Company provided that:-

- i.

the aggregate number of issued shares in the Company (“Shares”) purchased (“Purchased Shares”) and/or held as treasury shares pursuant to this ordinary resolution does not exceed ten per centum (10%) of the total number of issued shares of the Company as quoted on Bursa Securities as at point of purchase; and
- ii.

the maximum funds to be allocated by the Company for the purpose of purchasing the shares shall not exceed the aggregate of the retained profits of the Company based on the latest audited financial statements and/or the latest management accounts (where applicable) available at the time of the purchase

(“Proposed Share Buy-Back”).

AND THAT the authority to facilitate the Proposed Share Buy-Back will commence immediately upon passing of this ordinary resolution and will continue to be in force until:-

- a.

the conclusion of the next Annual General Meeting (“AGM”) of the Company following the general meeting at which such resolution is passed, at which time the authority shall lapse unless by ordinary resolution passed at the meeting, the authority is renewed, either unconditionally or subject to conditions;
- b.

the expiration of the period within which the next AGM of the Company is required by law to be held; or
- c.

revoked or varied by ordinary resolution passed by the shareholders of the Company at a general meeting,

whichever occurs first but shall not prejudice the completion of purchase(s) by the Company of its own Shares before the aforesaid expiry date and, in any event, in accordance with the Listing Requirements and any applicable laws, rules, regulations, orders, guidelines and requirements issued by any relevant authorities.

AND THAT the Directors of the Company be and are hereby authorised, at their discretion, to deal with the Purchased Shares until all the Purchased Shares have been dealt with by the Directors in the following manner as may be permitted by the Act, Listing Requirements, applicable laws, rules, regulations, guidelines, requirements and/or orders of any relevant authorities for the time being in force:-

- i.

To cancel all or part of the Purchased Shares;
- ii.

To retain all or part of the Purchased Shares as treasury shares as defined in Section 127 of the Act;
- iii.

To distribute all or part of the treasury shares as dividends to the shareholders of the Company;
- iv.

To resell all or part of the treasury shares;
- v.

To transfer all or part of the treasury shares for the purposes of or under the employees’ share scheme established by the Company and/or its subsidiaries;
- vi.

To transfer all or part of the treasury shares as purchase consideration;
- vii.

To sell, transfer or otherwise use the treasury shares for such other purposes as the Minister charged with responsibility for companies may by order prescribe; and/or
- viii.

To deal with the treasury shares in any other manners as allowed by the Act, Listing Requirements, applicable laws, rules, regulations, guidelines, requirements and/or orders of any relevant authorities for the time being in force.

- NOTICE OF THIRTY- FIRST ANNUAL GENERAL MEETING
- (2)

**Resolutions 1 to 3 – Re-election of Directors**

Mr. Low Hin Choong, Dato’ Anwar bin Haji @ Aji and Ms. Chin Min Ming are standing for re-election as Directors of the Company and being eligible, have offered themselves for re-election at the 31<sup>st</sup> AGM.

Please refer to Statement Accompanying Notice of the 31<sup>st</sup> AGM for further details.

(3)

**Resolution 4 – Declaration of a Single Tier Final Dividend**

Pursuant to Paragraph 8.26(2) of the MMLR, the single tier final dividend, if approved, will be paid on 26 June 2025.

(4)

**Resolutions 5 and 6 – Proposed Payment of Directors’ Fees and Benefits and Meeting Allowance**

Pursuant to Section 230(1) of the Companies Act, 2016, the fees of the Directors and any benefits payable to the Directors of a listed company and its subsidiaries shall be approved at a general meeting.

Resolution 5 is to seek shareholders’ approval to allow the Company to pay Directors’ fees and benefits (excluding meeting allowances) from this 31<sup>st</sup> AGM until the next AGM of the Company. The said Directors’ fees and benefits are calculated based on the current Board size and Board Remuneration Policy of the Company. In the event the proposed amount is insufficient (e.g. due to enlarged Board size or increased responsibility), approval will be sought at the next AGM for the shortfall.

Resolution 6 is to seek shareholders’ approval for the payment of meeting allowance to Non-Executive Directors of the Company for each Board and/or Board Committee meeting attended in accordance with the position held by the Non-Executive Director in the Board or Board Committee. If Resolution 6 is passed, the meeting allowance will be payable for the period from this 31<sup>st</sup> AGM until the next AGM of the Company at the quantum specified.

(5)

**Resolution 7 – Re-appointment of Auditors**

The Board had through the Audit Committee (“AC”), assessed the suitability and independence of the External Auditors, Messrs Deloitte PLT and considered the re-appointment of Messrs Deloitte PLT as Auditors of the Company. The Board and the AC collectively agreed and was satisfied that Messrs Deloitte PLT has the relevant criteria prescribed by Paragraph 15.21 of the MMLR. The Board approved the AC’s recommendation to seek the shareholders’ approval for the re-appointment of Messrs Deloitte PLT as auditors of the Company.

(Collectively referred to as the “Retiring Directors”)

The Retiring Directors being eligible, have offered themselves for re-election at the 31<sup>st</sup> AGM. The full profiles of the Retiring Directors can be found on pages 38 to 41 of the Annual Report 2024 while details of their interest in securities of the Company and conflict of interest with the Company, if any can be found on pages 80 and 70 respectively.

The Board through its Nominating and Remuneration Committee (“NRC”) had considered the following:

- (a) Skills, knowledge, expertise and experience, time, commitment, character, professionalism and integrity (including that the Retiring Directors are not active politicians) in accordance with the fit and proper criteria prescribed in the MBMR Directors’ Fit and Proper Policy and the Director’s Declaration Form executed by each of the Retiring Directors;
- (b) Outcome of the Board and Individual Director Effectiveness Evaluation conducted for the financial year ended 31 December 2024; and
- (c) Disclosures of any interest, position or relationship that may result in a conflict of interest or might influence, or reasonably be perceived to influence in a material respect the capacity to bring independent judgment to bear on issues before the Board and to act in the best interests of the Company as a whole.
- (d) Criteria for independence pursuant to the Main Market Listing Requirements of Bursa Securities Malaysia Berhad (for independent directors being re-elected).

Based on the above, the Board and the NRC was satisfied that the Retiring Directors met the criteria as prescribed by Paragraph 2.20A of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad on character, experience, integrity, competence and time to effectively discharge their roles as Directors and that they met the criteria prescribed by the MBMR Directors’ Fit and Proper Policy.

The Board (save for the Retiring Directors, who abstained from deliberation on discussions relating to their own re-election at the Board meeting) supports and recommends the re-election of the Retiring Directors to the shareholders for approval as the Board believes that the Retiring Directors have discharged their duties and responsibilities effectively, demonstrated commitment to their role, and will continue to make a strong contribution to the Board and to the long-term sustainable success of the Company.

Pre-Meeting Submission of Questions to the Board of Directors

The Board recognises that the 31<sup>st</sup> AGM is a valuable opportunity for the Board to engage with shareholders. In order to enhance the efficiency of the proceedings of the 31<sup>st</sup> AGM, shareholders may in advance, before the 31<sup>st</sup> AGM, submit questions to the Board of Directors via Tricor’s TIIH Online website at <https://tiih.online>, by selecting “e-Services” to login, post your questions and submit it electronically no later than Tuesday, 27<sup>th</sup> May 2025. The Board of Directors will endeavour to address the questions received at the 31<sup>st</sup> AGM.

Registration and Verification

- Registration will start at 8:00 a.m. on Thursday, 29 May 2025 at the AGM Venue and the AGM will start at 10.00 a.m. We strongly encourage you to come early to ensure a smooth registration and verification process.
- Please produce your personal identification document (original NRIC for Malaysians or valid passport for foreigners) for verification. Corporate Representatives will be required to present an authorisation letter along with their personal identification document.
- Upon verification you will be given an identification wristband. No person will be allowed to register on behalf of another person using the personal identification document of another person.
- If you are attending the 31<sup>st</sup> AGM as shareholder as well as proxy, you will be registered once and will be given only one (1) identification wristband.
- You must wear the identification wristband throughout the AGM. No person will be allowed to enter the AGM Venue without wearing the identification wristband. There will not be any replacement in the event that the identification wristband is lost, stolen and/or misplaced.

Voting at Meeting

- The voting at the 31<sup>st</sup> AGM will be conducted by poll in accordance with Paragraph 8.29A of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad (“Bursa Malaysia”). The Company has appointed Tricor to conduct the poll voting electronically (“e-voting”) via Tricor e-Vote application (“Tricor e-Vote App”) and Scrutineer Solutions Sdn Berhad as Independent Scrutineers to verify the poll results.
- Shareholders/proxies/corporate representatives/attorneys may proceed to vote on the resolutions at the time announced by the Chairman at the 31<sup>st</sup> AGM.

Steps to Vote:  
1. Proceed to the designated polling kiosk.  
2. Scan the QR code on your identification wristband.  
3. Follow the on-screen instructions to cast your vote.

Results of the voting

- The resolutions proposed at the 31<sup>st</sup> AGM and the results of the voting will be announced at the 31<sup>st</sup> AGM and subsequently via an announcement made by the Company through Bursa Malaysia at [www.bursamalaysia.com](http://www.bursamalaysia.com).

Parking

- The parking at Royale Chulan Damansara Hotel operates on a ticketing card system which will need to be validated to be eligible for a flat rate of RM10. Validation details will be provided during or after the AGM.

Annual Report

- The Annual Report is available on the Company’s website at [www.mbmr.com.my](http://www.mbmr.com.my) and Bursa Malaysia’s website at [www.bursamalaysia.com](http://www.bursamalaysia.com) under Company Announcements.
- You may request for a printed copy of the Annual Report at <https://tiih.online> by selecting “Request for Annual Report / Circular” under the “Investor Services”.
- Kindly consider the environment before you decide to request for the printed copy of the Annual Report.
